## *Building Trades Workmen To Aid Depression War*

### Offer To Aid Move Being Made Here By Taking Reductions

### Legion To Begin Move For "Rochester Plan" On Saturday Morning

**As tangible evidence of their desire to co-operate in the "War Against Depression" and as an earnest of their good faith, five of the building trades of the city have offered to undergo sharp reductions in their wage scales for a period of ninety days.**

The offer comes as the result of several conferences between the representatives of the general committee now engaged here in unearthing work for idle men, under the sponsorship of the Perry S. Gaston Post, American Legion.

**Averages 36 Per Cent**

The average reduction voluntarily offered by the building trades men is approximately 36 per cent. The crafts included in the group and the percentages of reduction offered, follow: Brick layers, 45; Iron workers 40; Carpenters, Painters, Sheet Metal Workers, 30. These offers are good until June 15 and apply on all repair work, but not on construction work.

The crafts mentioned are members of the Crafts Emergency Organization of which W. C. Earl is the secretary. Speaking for the crafts Mr. Earl said, "we are interested in this War Against Depression and we want to co-operate with the committees in charge. In order to be a part of the movement our men have offered these reductions in their wage scale for all work which will come through the headquarters of the War Against Depression at 326 Neshannock avenue."

"Every man in our organization is a skilled mechanic in his trade. It is coming to the time when the average householder has a lot of work to be done about his place and as far as we are concerned he can get it done now for about two thirds of what it would have cost him a year ago."

**Will Help Work**

The generous offer of the building trades men will undoubtedly aid materially in the plan to be used in getting work started here. For

LONDON, Mar. 11.—The captain of the Norwegian liner Bergensfjord sent the following radio message to International News Service today:

"A thorough search of the Bergensfjord failed to reveal the presence of the Lindbergh baby."

The search was conducted on receipt of a tip from an American customs inspector who reported that a man carrying a curly-headed baby boarded the liner in New York as it sailed for Bergen, Norway, on the day after the kidnaping.

### MOTHER GRIEVED OVER CEREMONY

**(BULLETIN)**
(International News Service)

LONDON, Mar. 11.—The Cinderella romance of Miss Karen Nissvandt, Swedish commoner, and Prince Lennart, grandson of King Gustav of Sweden, reached its climax today with a simple marriage ceremony in a dingy London registrar's office.

Against a background of office desks and tables, the young prince married his boyhood sweetheart, sacrificing forever all his royal titles and prerogatives—and his blue-blooded relatives stayed away from the affair.

Lennart's mother, the Grand Duchess Marie of Russia, who came all the way from New York for the ceremony, was said to be ill at her hotel, but she was known to be keenly disappointed over her son's refusal to undergo a religious ceremony as she had wished.

The Grand Duke Dmitri, uncle of Prince Lennart, who also had been expected to attend, went for a walk instead.

There was much speculation over the absence of these two members of the former Russian Imperial family.

## No More Answers To Press Queries By State Police

**(BULLETIN)**
(International News Service)

TRENTON, N. J., Mar. 11—Answering of questions submitted to police by newspapermen on the Lindbergh baby kidnaping will be discontinued, the authorities announced today.

In a statement Colonel H. Norman Schwarzkopf of the state police said answering of the questions required so much time it was interfering with the work of the officers.

He said bulletins on the progress of the kidnaping investigation would be issued by police daily at 11 a. m. and 10 o'clock p. m. in addition a bulletin will be issued at any time some development of importance is uncovered, he said.

Schwarzkopf declined to answer 14 questions submitted at the press conference early today. He also in his statement said:

"We regret the attempt that has been made to dictate to the police and the disregard that is shown to our earnest efforts to cooperate with the press."

## LOTTERY HALTS MAIL ON BORDER GIRL DISCOVERS

Love and lotteries won't mix—when an international boundary separates them. Miss Angelina Frias of Laredo, Texas, found this out when she dispatched a tender missive to her sweetheart, a radio announcer at Station XED, Reynosa, Mexico. Her love letter came back marked "Fraudulent Mail." The postmaster explained the government had ordered mail address to Station XED returned because the station persisted in advertising the Mexican National Lottery by urging United States residents to send dollars for chances. Photos show Miss Frias and her "fraudulent" letter.

## Predict Tax Bill To Pass

### Republican And Democratic House Leaders Confident Of Measure

### POLITICAL ISSUE HAS BEEN RAISED

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Mar. 11.—Passage of the $1,096,000,000 tax bill in the house was predicted by Democratic and Republican leaders today as the second day of debate opened on the measure. A final vote is expected next week.

Refusing to yield in the face of strong organization pressure a militant minority continued to direct slashing attacks at the measure with the hope of forcing important amendments.

**Issue Is Raised**

The political issue was raised by Rep. Nelson (D) of Missouri who warned the Democrats that the country would hold them responsible for the measure because they are in control of the house. The bill was offered by the ways and means committee as a non-partisan measure.

The old "greenback" issue was raised when opponents proposed the printing of money to meet a large part of the treasury deficit.

Others demanding the issuance of bonds to raise the necessary funds.

The 2 1-4 per cent manufacturers' sales tax drew the brunt of attacks on the bill. Opponents served notice they will attempt to modify the tax by exempting all food products, particularly canned goods, and other articles.

## Four Kidnapers In China Slain By Firing Squad

SHANGHAI, China, Mar. 11.—Four Chinese kidnapers faced a firing squad today at Tsao Ho-King prison in Shanghai. Two of the men were convicted of kidnaping a compradore (native commission merchant) of the British-American Tobacco Company in March, 1929, and the others were convicted of kidnaping a compradore of a British company in 1930.

HOPEWELL, N. J., Mar. 11—The Lindberghs do not know whether or not they have been in touch with the kidnapers of their baby.

Hundreds of letters have come in, purporting to be from those who took little Charlie from his crib a week ago Tuesday night. Clues have been gathered, checked, acted upon. But the Lindberghs today are as perplexed as you and I.

This was revealed to International News Service today by an intimate friend of the Morrow family.

"Do you think the kidnapers have really been heard from?" this friend was asked.

"I'm afraid not," was the response.

"Do the Lindberghs believe they have?"

"No."

That is the situation—as viewed by some one who has been in the Morrow home in Englewood every day, who has spoken by telephone with the Hopewell mansion. It is some one who wants to believe the baby is safe and will be returned, who insists that the family still is waiting and hoping.

## Philadelphian Confesses That He Killed Wife

### Vito Spanno, Confesses To Police He Choked His Wife To Death

(International News Service)

PHILADELPHIA, Mar. 11.—"She was going out with other men. I was jealous.

"She wanted a divorce. I hit her on the jaw and choked her to death."

These are the statements attributed by police today to Vito Spanno, who, detectives say, has confessed to the garroting of his pretty 18-year-old wife, Angelina.

**Slayer Called Police.**

Spanno called police yesterday morning. He said he had just come home and found his wife slain. The little apartment was in disorder when police arrived.

Across the foot of a bed lay the body of Spanno's wife. Bruises covered her face. A piece of clothesline was tightly wound around her neck.

Spanno told police upon their arrival that he believed a burglar had broken into the apartment and strangled his wife. Detectives were suspicious and took Spanno into custody for questioning.

After several hours of intense grilling he made a verbal confession to the murder, detectives said.

## FEWER ABSENTEES IN CITY SCHOOLS

Absentees in the schools are decreasing with the severity of the weather according to Dr. C. C. Green, superintendent of schools. Thursday's totals in the elementary schools showed 1111 absent, which is a reduction of approximately 350 of several days ago. Several teachers are still absent and substitutes are getting considerable work as the result of it.

*BEVERLY HILLS, Cal., Mar. 11.—In one of my little poems I said the bankers were the first to go on the "dole," the "wrath of the mighty" ascended on me. Even the Wall Street Journal (Wall street's house organ) editorially said I should confine my jokes to some semblance of truth. Now I want to be fair even with the bankers, for they are pretty touchy now. I have had critics come out and say: "As an actor old Bill is not so hot." Well, I just wanted to come out and call him a liar, but in my heart and conscience I knew he was right. So I know how you "boys" feel. Now if you will take this money and loan it out to a lot of the little fellows that need it, you bankers got a chance to redeem yourselves. But I am not kidding you. People are not "pointing with pride" to your record in this crisis up to now. Will be glad to reprint any alibis.*

## Woodward Will Withdraw From Senator Race

### Will Leave Field Clear For Davis And Butler Fight For U. S. Senate

(International News Service)

PHILADELPHIA, Pa., Mar. 11.—George Woodward, militant member of the state senate, this afternoon will formally announce his withdrawal as a candidate for nomination for United States senator.

International News Service was informed of the action by an attache of Senator Woodward's office here.

Action of Woodward, in withdrawing, leaves the field clear for a "hand-to-hand" battle between Senator James J. Davis, who seeks renomination on a wet platform and Major General Smedley D. Butler, supported by dry forces at the Pennsylvania primary April 26.

Several weeks ago, Woodward announced himself as an anti-prohibitionist candidate for the senatorship. He filed nominating petitions at Harrisburg last Monday.

## CHILDREN OF SPITALE NOW UNDER GUARD

SPITALE'S CHILDREN

New York, Mar. 11.—While Salvatore Spitale hunted for the kidnapers of the Lindbergh baby today, his own two children were carefully guarded after receipt of mailed threats to abduct them.

Spitale and Irving Bitz were the two men, reputed powerful in underworld circles, authorized by Colonel and Mrs. Charles A. Lindbergh to act as "go-betweens" with the kidnapers.

Mrs. Spitale herself takes her daughters to school now. A chauffeur was assigned to patrol the street during class hours to frustrate any possible attempt to abduct the girl at school.

A young son is kept always in sight at the Spitale home.

"We have had three letters containing threats to kidnap our children," Mrs. Spitale said.

"Consequently, I am deeply worried, despite a belief the letters are the work of a crank or cranks."

## INVESTIGATION INTO BABY KIDNAPING SWINGS TO FLORIDA

### Question Reported Friend Of Servants At Lindbergh Home—Few Developments In Kidnaping Case In Past 24 Hours

By DAVID P. SENTNER
(International News Service Staff Correspondent)

NEW YORK, Mar. 11.—The far-flung investigation into the vanishing of the kidnaped Lindbergh baby today swung temporarily into Florida.

On the report that John Norman Brett was a friend of the servants of the Lindbergh household at Hopewell, N. J., police at Miami were asked to take him into custody for questioning.

Brett emphatically denied that he was acquainted with anybody in the Lindbergh home and claimed he was in Miami since January.

He will be released if his story is found to be correct, Colonel H. Norman Schwarzkopf, of the New Jersey State Police, announced.

There was little else that the police had to say about the progress of the ten-day-old kidnaping mystery.

The wood used in the ladder left behind by the kidnapers could not be connected with timber in the vicinity. The employes on construction work at the Skillman Village for Epileptics, near the Lindbergh home, were exonerated. There was also no connection found between the kidnaping and workmen employed in the building of the Lindbergh residence.

## Harlansburg Man Drops Dead On Road

### Hugh W. White Expires After Alighting From Bus Near Harlansburg

Hugh Wilson White of Scott township, dropped dead about four o'clock Thursday afternoon about half a mile beyond Harlansburg, while walking home from Harlansburg, where he had left the bus, in which he had returned from Beaver Falls, Pa., where he had spent the day visiting a sister, Mrs. L. D. Bowser, who was seriously ill.

Adding to the sadness occasioned by his sudden death was the fact that Mrs. Bowser, the sister, whom he had visited, died at six o'clock last evening.

Fortunately Frank Brown happened along just after Mr. White had been stricken, the latter just expiring as Mr. Brown came up to him as he lay prostrate on the roadway.

Mr. White was born in Grove City, January 14, 1869, the son of David P. and Eliza Rainey White and was 63 years of age. He was a farmer by occupation and had resided in Scott township with his sister, Mrs. James Bruce for the past ten years.

He was a member of the Rose Point Reformed Presbyterian church. He leaves two brothers, J. B. White of Florida, and W. R. White, of State College, Pa., and two sisters, Mrs. James McBurney, of Los Angeles, Cal., and Mrs. James Bruce, of Scott township. Mrs. L. D. Bowser, of Beaver Falls, survived him but a short time, dying at 6 p. m. last evening.

Funeral services will be held Saturday, March 12 1932 at 1 p. m. in the Harlansburg Presbyterian church with Rev. Paul D. McCracken of the Rose Point Reformed Presbyterian church in charge. Interment will be made in the Harmony cemetery at Grove City Pa.

## *Official Historian Of Bi-Centennial Commission To Investigate Route Of Washington Through This Area*

According to a message received here, the route followed by George Washington in 1753 from Ambridge to Erie, which many believe went through this city, is to be investigated by the official historian of the United States George Washington Bicentennial Commission next week.

Prof. Albert Buchnell Hart, professor emeritus of Harvard and official historian of the national bicentennial commission, accompanied by Prof. John K. Lacock of Boston, formerly historian at Harvard university, will arrive in Pittsburgh on March 17 and prepare to make a three-day trip over the route taken from Ambridge to Erie.

All known facts on the route that was taken by Wasnington and Christopher Gist in 1753 will be studied and the historians will make an effort to definitely fix the route that was followed. It is believed by many who have studied the matter that Washington and Gist went through what is now the city of New Castle on that trip.

It is probable the decision these men in their trip next week will determine whether or not the route will be officially marked as correct historically.

Many in this district are awaiting the outcome of the tour.

# SEE EARLY COURT DECISION ON TALBOT BILL

## Talbot Bill In Special Hearing At Pittsburgh

State Supreme Court Will Make Early Decision On Relief Bill

TODAY'S HEARING IMPORTANT ONE

Should High Tribunal Uphold Bill Appropriations Will Be Available

By ARTHUR B. DONEGAN
International News Service Staff Correspondent

PITTSBURGH, Mar. 11.—**Dying echoes of the bitter factionalism that shattered party lines in the recent extraordinary session of the general assembly were revified today in the staid atmosphere of the Pennsylvania supreme court where the Talbot unemployment relief act went "on trial" in a special hearing."**

Indications were seen that the state's highest tribunal, in fixing a special hearing in advance of the regular session opening Monday, intends speedy arrival at a determination of the validity of the relief measure which appropriates $10,000,000 from the general fund to the poor board districts of the state.

Should the high coure follow the action of the Dauphin county court, where the test suit was instituted, in holding the measure constitutional, the proposed appropriations would be made available for early distribution.

**Fine Legal Array.**

The Talbot bill was allowed to become law last December 28 through the passive, but negative, action of Gov. Gifford Pinchot who denounced it as unconstitutional—an opinion in which Attorney General William A. Schnader joined.

A brilliant array of legal talent was present for opening of arguments today. Former U. S. Senator George Wharton Pepper was associated with former Attorney General George E. Alter in defending the constitutionality of the bill.

Today's arguments are an outgrowth to a test suit in Dauphin county court in which early payment of the Luzerne county's share of the bill's appropriation was sought.

less period since the disappearance of the child is considered serious. There no one talks glibly of the babys return to his nursery in ten or twenty or even seventy two hours.

Much as the parents of the Lindbergh baby would like to believe their son will be back at any time, they will not be misled by the turn of events.

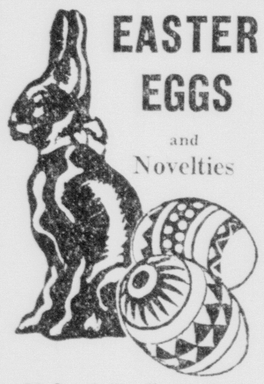

A baby vanished beyond the reach of the police trailing is a baby very far indeed from his mother's arms, they think.

The police have admitted, in answer to reporter's questions, that there is no proof any letter has been received from the kidnapers since the original ransom note. With cranks all over the world sending in false clues, it is a difficult and tedious task to sort out the even probable leads.

Nothing, except the steadfast spirit of Colonel and Mrs. Lindbergh, points to the recovery of the child.

"They are still waiting," is the only report from the grief stricken household.

(Continued From Page One)

about two weeks the headquarters have been open on Neshannock avenue and some 70 jobs have been provided. In order to leave nothing undone in the matter, the committee under the direction of R. Loy Boyd, general chairman has decided to adopt a modified "Rochester Plan" which means a thorough canvas of the entire city.

On Saturday morning a large group of Boy Scouts will go out over the city, carrying with them circulars describing the plan, and containing a coupon upon which the householder can set down what work he will have done.

On Wednesday of next week a group of men and women will go over the same ground, collecting the circulars, and also carrying with them a supply of cards. These are to replace circulars which may have been lost or mislaid.

Every householder will have a chance to have a part in this campaign against unemployment. There are scores of odd jobs to be done. Roofs will need attention when the cold weather leaves, chimneys will need pointed up, concrete walks will need repairing or being laid new, cupboards need extensions, cellar walls need cemented or whitewashed, floors need new coverings, these are but a few of the jobs that might be done.

**Skilled Labor**

House holders who sign the circulars or cards will know that the work will be done by competent, skilled men. Where a craftsman is needed, he will be supplied. Where unskilled labor is needed, it will be supplied.

This is a chance to get work done at a sharply reduced price, and at the same time provide for unemployed men. In the mean time the work of getting jobs for unemployed goes on at the headquarters at 326 Neshannock avenue. In the past twenty four hours nine jobs have been provided and men put to work. The hunt for coal miners needed is still going on.

Chinese And Japanese Abstain From Voting On Resolution Seeking Peace

By ARNO DOSCH-FLEUROT

GENEVA, Mar. 11.—With Japan and China both abstaining, the League of Nations assembly this evening adopted a resolution providing for a peaceful settlement of the far eastern conflict.

The vote was taken by a show of hands and with the exception of the two powers immediately concerned apparently was unanimous.

The Japanese delegate, Naotake Sato, had been specifically instructed by Tokyo not to vote. Dr. W. W. Yen, the Chinese delegate, said he had not received instructions from his government.

## Report Is Made On Part Of Audit

Former Auditors Will Complete It Under Direction Of County Controller

Audit of the county books is to be completed by former county auditors under the direction of County Controller, R. C. McCaslin. The law specifies that a report is to be made to the county controller within three months after he assumes office. This report has been made as the law specifies, but it was incomplete, the auditors not having time to check up some items that were not clear.

Question was raised as to how the audit was to be completed but it has been decided that the only feasible way is to have the former auditors do the work. It is said that the work can be done in a week or ten days.

As soon as it is completed the county will be in a position to demand that the bonding company turn over to the county the amount which former treasurer, Adda M. Smiley had deposited in an Ellwood City bank at the time that it was closed. The amount is $147,161.74. The bonding company will then have to look to the bank for this money.

As the bond covered all of Miss Smiley's transactions the county did not wish to make any demand, until the full report of the audit was presented. There are some other items in the account which has made it very tedious to check.

## Seek To Rescue Dredge In Ice Jammed Waters

U. S. Dredge Boat Held Fast In Lake Erie Since Late Wednesday

FISHING TUGS ARE RELEASED

(International News Service)

SANDUSKY, O., Mar. 11.—Rescue boats from several Lake Erie ports set out today in an attempt to reach the United States Dredge Taylor, which has been held fast in the ice near here since late Wednesday with a crew of 40 aboard.

U. S. coastguard boats which late yesterday aided in freeing the fishing tug New York from the ice at the mouth of Cuyahoga river, were called to aid the Taylor craft.

One other boat was feared in distress on the lake as a result of the ice floes. The Steamer Fellowcraft, fast in the ice since Wednesday, was reported last night to have been seen drifting helplessly toward Pelee Island.

**Believed Grounded.**

The Dredge Taylor last night was believed to have been grounded on the Starve Island reef. Coast guards were unable to get any closer than two miles from the craft to ascertain definitely its plight.

The Dredge left Toledo on Wednesday for Cleveland and carried food to last the crew three weeks. Captain Justin McCavley of Detroit is in command.

With seven men aboard, the fishing tug New York was freed by a rescue crew on the Tug California. After the Cleveland coastguard lookout noticed that the New York was in trouble and notified the harbor master.

of James Martin and Morris Grossman, with smuggling liquor ashore.

Spitale and Bitz, however, appeared more interested in their hunt for the Lindbergh baby than in their court troubles.

Through counsel, they declared that they had information concerning the stolen baby which would cause them to leave for Detroit as soon as the trial was over.

"I cannot discuss the nature of this 'lead,'" said Abraham Kesselman, the attorney, "but they plan to go to Detroit as soon as possible."

Outside the barrier of silence surrounding the estate without a baby on a New Jersey hillock, only two other happenings, of possible significance, were recorded.

1. An employe of a detective agency spent most of the day with the Lindberghs.

2. Two messages, which fitted into the present status of the mystery, appeared on successive days in a New York newspaper personal column.

The, latest published message which declared that "the money was ready" was signed "Jafsie."

Jafsie—perhaps the initials J. F. C.

Certain sources which claimed to be "in the know" said that these messages had been inserted by the Lindberghs.

At right angles to this was the equally positive source which declared that neither Colonel nor Mrs. Lindbergh, despite reports to the contrary, had ever received any communication from the kidnapers.

**Mystery In Case**

New York, Mar. 11.—A curtain of mystery thudded down on the ten-day-old Lindbergh baby kidnaping puzzle today.

It became just another unsolved police case.

What was occurring behind the asbestos drapery cloaking the tragedy was a matter for the audience only to conjecture.

The principal actors—a famous baby, two famous parents, a daring kidnaping band, the law—went on growing, hiding, hunting.

Perhaps there were negotiations underway or concluded for the eventual return of the world's best-known infant, but the actors were not telling of it.

The millions in the outlying arena of life who had throbbed in sympathetic anguish with Colonel and Mrs. Charles A. Lindbergh applied themselves again to their daily routine with a sigh.

They hugged their own little ones a bit tighter and continued to pray that sooner or later the good news would be announced.

However, neither police nor the bereft Lindbergh household at Hopewell, N. J., indicated when the happy finale could be expected.

**No Developments**

There were no definite developments other than deductions based on information gleaned from second-hand sources.

Even the official "questionnaire" conferences between the press and police were discontinued.

There appeared to be no advance to the progress reported previously by the state police in the case.

Only one person remained in the custody of authorities and he continued to be described as a "voluntary witness." He was Henry "Red" Johnson, sailor sweetheart of Betty Gow, Lindbergh nurse.

During the farewell press conference it was disclosed that Johnson had been to a moving picture theatre in Englewood, N. J., on the night of the kidnaping.

**No Definite Responsibility**

A statement by Col. H. Norman Schwarzkopf, commander of the New Jersey state police, said in part:

"So far, we have not been able to fix any definite responsibility for the kidnaping upon Henry Johnson or Betty Gow but because of international investigations of both of these subjects with reference to their previous lives abroad, we are not in a position to vindicate them."

The ladder used by the kidnapers continued to be a subject for intensive investigation. R. B. Hullfish, who was in charge of construction work on the Lindbergh homestead, said that the lumber in the ladder might have been taken from wood used in the construction of the Lindbergh house, or from left-over material in the erection of other residences in the neighborhood.

**No Insane Person**

Dr. Henry A. Cotton, director emeritus of the New Jersey State Hospital for the Insane, believes that a shrewd, cold-blooded person of normal mentality guided the kidnaping.

"I have never known an insane person or an epileptic to seek a ransom," said Dr. Cotton.

A ransom note was left in the Lindbergh nursery by the baby-stealers.

The state troopers, investigators and clerical personnel at the Lindbergh estate dwindled down to sixty persons.

In Chicago, Al Capone told Arthur Brisbane, noted editor, in an interview from a jail cel, that he would "hunt night and day" for the Lindbergh baby if the government would release him temporarily.

**ICE CAUSES INJURY**

City Fireman Earl Patton, stationed at the Croton engine house, was resting at his home today from injuries sustained in his leg when he fell on the ice at the fire house. His place is being filled temporarily by Norman McFarland.

Garner isn't a candidate for the Presidency. He said a cuss word for the reporters to quote.

## *Says We Have Reason To 'Thank God For Hoover'*

(International News Service)

WASHINGTON, Mar. 11.—"We have reason to thank God for Hoover," was the last sentence of a prepared statement Charles F. Abbott, executive director of the American Institute of Steel Construction, gave reporters today, following a call on the President.

The statement set foth that Abbott had been conferring with representatives of the steel construction industry from coast to coast and had found "the political opposition to President Hoover is purely a surface conditon." Criticism of the administration, it continued "is clap-trap."

## KITCHEN SHOWER FOR RECENT BRIDE

Mrs. Gordon Robinson, formerly Miss Opal Ryhal, was the guest of honor Thursday evening when a group of girls, with whom she works were entertained by Misses Edith Marianna and Olive Mack in the Ryhal home on Harbor street.

Bridge and five hundred were the diversions of the early part of the evening and at conclusion of play the guests were invited to the dining room, where they were seated at a long table, which was centered with a green crepe umbrella, from which hung silver icicles and at the corners of the umbrella, tall burning green tapers tied with green and white maline shed a soft glow on the clever appointments.

Green ribbon streamers led from the umbrella to each place and upon pulling these, the guests drew forth a small card on which was inscribed Opal and Gordon, February 10, 1932, thus revealing the marriage, which had taken place a month ago.

After the hostesses, assisted by Mrs. E. Ryhal, served a menu of delicious refreshments the group again returned to the living room, where a large stone well had been placed in the center of the floor and Mrs. Robinson was instructed to bring forth contents, which proved to be a lovely assortment of useful articles for the kitchen of her new home.

Special guests were Florence Marianna and Carrie Hempel.

In two weeks there will be another gathering of this nature, the host to be announced.

### Surprise Party

Miss Bertha Jenks was pleasantly surprised Wednesday evening at the home of Miss Beulah James when she entertained in honor of her birthday anniversary, a group of friends informally. Dancing and bingo were the diversions, prizes being won by Freda Hitch and Elsie Beals.

A color scheme of green and white was used in the menu and table appointments and the hostess had as her aides in serving her mother Mrs. William James. At the close of the evening, the honored one was presented with a number of nice gifts in memory of the day.

Guests were present from Sharon, Youngstown, O., and Pittsburgh.

### A CENTURY'S ADVANCE

FROM the advent of the railroad until the beginning of practical aerial transportation there elapsed approximately a century. The mighty advances of science and invention which came in between these epochal events were so great as to tax the imagination. Within the span of these hundred years a thousand marvels have been born, which it would take months of research to enumerate and describe.. Consider a few jotted down off-hand:

Railroads, steel ships, perfected cotton gins, the telegraph, the telephone, photography, the phonograph, the sewing machine, anaesthetics, sanitation, the X-ray, radium, motion pictures, automobiles, radio, aircraft, television and many others, together with innumerable improvements and refinements and discoveries.

The advance of the past hundred years appears all the more remarkable when we reflect that mankind has lived and labored under some sort of civilization 10,000 years. The achievements of the last century have been greater than those of all the hundred centuries which preceded it.

These achievements will be strikingly portrayed by the big fair to be held in Chicago next year in celebration of "a century of progress."

### THE BACK-SEAT DRIVER A SERIOUS MENACE

We have all heard a great deal about the back-seat driver, but most of it has been in a sarcastic or jocular vein. Now along comes the Pennsylvania Motor Federation to say that the person who assumes this role is a serious menace in any car. The spokesman for the organization declares that one clear head behind the wheel is far better than two, three or more trying to control the car from points of disadvantage from the rear. Common sense tells us that advice from this quarter has the effect of restraining the operator's mind and districting his attention. The effect is often disastrous.

It is rightly said that every driver should be ready at all times to meet an emergency. He must be quick-thinking and on the alert at all times. He schould keep his mind on his task. This is dictated both by law and common sense. But what shall be done with the person who insists upon interfering? Here is one suggestion from the Motor Federation: "If passengers do not feel at ease riding in a car without giving instructions and making suggestions regarding its operation they should stay at home, or use some other means of conveyance in which their directions, if uttered at all, can do no harm."

### ROUNDING THE CORNER

Absorbed with their own problems and the measures being taken for their solution, the American people have been slow to awaken to the definite signs of economic and financial recovery that have recently made their appearance in Europe.

There has been a distinct revival of financial confidence beginning in London with reduction of the bank rate and improvement of the British government's credit position and spreading to the Paris Bourse. Hign grade securities in both England and France have been advancing for a fortnight.

Europe may be reacting to the reconstruction program just placed in operation on this side of the Atlantic, or the new strength over there may be due entirely to domestic recovery. Whichever it is, the improvement is bound to be reflected in the United States. Greater confidence here will bring new confidence there, which in turn rebounds to inspire still greater confidence here, and so on back and forth until something out of the ordinary reverses the flow.

Regardless of the permanence of this movement and the extent of the reaction that is considered to be due on technical grounds, it is of the type that must accompany the turning of the corner. When prosperity usurps the throne of depression the accession will come about in this way. There may be several false alarms before the true turning is made, but if the world continues to respond that elusive corner ultimately will be rounded in the grand manner.

### FIGHTING THE DRUG EVIL AT ITS SOURCE

It is interesting to note that, while the nations of the world are now assembled in Geneva for the purpose of bringing about the limitation of armament, the American delegation to the Conference on Limitation of the Manufacture of Narcotic Drugs, which met there in 1931, has presented a report urging ratification by this country of the treaty which seeks to control the drug traffic at its source. In principle the method is quite similar to that of the drug control laws in the United States. This treaty was drawn up last July, but the custom is to move slowly in matters of this kind. Members of the delegation, however, feel that the time has come for the Senate to act on the matter.

Those interested in the subject may recall that the treaty as finally adopted divided narcotics into the habit-forming drugs such as morphine, heroin and cocaine and the minor ones such as codein and dionin. The manufacture of narcotics is limited to the estimated medical and scientific needs under a strict license system. Distribution within the various countries is to be controlled by a system in which drugs will move from one licensed person to another, and finally be passed to the consumer only on medical prescription. Export licenses are to be rigidly guarded to cover the legitimate needs in the country of destination. In other words, an intelligent attempt is to be made to fight the drug evil at its source.

It is hardly necessary to point out the dreadful effect of habit-forming drugs on those who use them. Conditions are not quite so bad in this country as they were before the attempt to control the evil was made by the Federal Government. It is estimated that there are not more than 100,000 confirmed drug addicts in the United States; yet there must be many more who have felt the baneful effects of narcotics. Conditions will be further helped by the adoption of this treaty. Favorable action by this country would influence other nations to take similar action.

**Five Questions**
**Ridiculous Men**
**Women, Too, "Need" Wives**

By MARSHALL MASLIN

When does a man feel most profoundly ridiculous?

Some men might answer that it's when the girl a man loves laughs at him. Others might say it's when a garter slips and flops along the sidewalk as a man is running to catch a street car . . . It's neither of these.

It's when a man gets up from a chair, when a lot of people are around, and discovers that his trouser leg has caught in his garter and he kicks it and kicks and it won't come loose and at last he must bend over and pull it loose and come erect again with a red face.

Why aren't women successes in business?

Lorine Pruette has written a book about the eleven million women who work in this country. She says it's because, to a woman, business success is not something that she simply MUST achieve. She can marry. She can be "not strong enough." She is too emotional. Her husband doesn't really want her to succeed.

"Finally, women fail because they seldom have wives. In the life of almost any well known man, a woman will be found as a combination watch dog, nurse and secretary. But I do not know of any man who performs these services."

Are those good answers?

What does "sharing" mean?

I saw a card in a home, and it read, "We have shared." Shared what? Shared money? Is that all that "sharing" means? If we have not shared pity and agony and heartbreak we have not really shared.

Why is bridge so popular?

Because it is an "intellectual game"? Chess is far more "intellectual."

I'll tell you. Last week I bid "six spades" and made them, I thought to myself, quite cleverly. And happening to look in a mirror I was startled by the smirking complacence on my face.

In bridge you take all the credit for your successes while you blame your defeats on poor cards or "bad distribution."

* * *

How can we be so mean?

I don't mean people at the north pole or in Central Asia—I mean us. We intended to be so good, so sweet, so perfect, so well behaved, and now we've lost our tempers, let harsh words slip, offended the one we love the best.

How did it ever happen? Don't ask me—I don't think anybody can answer that question.

**THE SCANDAL MONGER**

In nearly all establishments there are employes who carry tales to those in charge of the business or the department heads.

Usually such people don't confine themselves to matters pertaining to the business which the bosses ought to know.

Often there are personal matters with certain employees which are apt to have a bad effect on their chances for promotion or retaining their jobs.

The tale carrier hopes to make his position more secure and gain for him favorable consideration in future.

The wise superintendent may listen but he will not be favorably impressed by the one who tells tales derogatory to his fellow employes.

It is safe to say that the person who will bear tales about those working with him would also peddle information about the firm to those outside.

And the superintendent knows that such a one would not hesitate to say things about him to the men above him.

Such a person is not a safe employe for a responsible position and responsible positions hold much inside information that it would not do to talk about outside the establishment.

The scandal monger of any degree is most unsafe anywhere, in any business.

### HE WHO FINDS PLEASURE

In an argument makes a poor neighbor.
Only in money makes a poor home maker.
In another's humiliation is an unsafe friend.
Only in his appetites will never find heaven satisfactory.
In any man's suffering makes a poor preacher.
Only in that which he enjoys alone can never be trusted.
In his work is usually satisfied with life.

The patter of tiny feet was heard from the head of the stair. Mrs. Smythe raised her hand, warning the members of her bridge club to be silent.

"Mama," came the message in a shrill whisper, "Willie found a bed-bug."

## Hints and Dints

Sun sets tonight 6:02. Sun rises tomorrow 6:18.

**MARCH 12 BABIES.**

**Next Saturday is March 12th and the Hints and Dints Man's birthday. As has been our custom we will give five dollars—in spite of the depression—to all babies born on that day in Lawrence county. Double for twins of course and ten dollars each for triplets and double that for more.**

**Proof of birth must be presented on or before April 1. Heretofore claims have been made as long as a year afterwards. One lady said her doctor did not tell her until he was called the second time in the same year and when we told her she was too late she said she would fire her doctor and get one that reads The News. She was right.**

**A doctor's certificate is all that is required. This means the babies born on next Saturday and not those born since Columbus discovered America and it means only Lawrence county.**

**No five dollars after April 1st**

Men who are active in public affairs and try to do their civic duty are often accused of "trying to run the town" by those who stand on the sidelines. The men so accused are always busy men and would gladly stand by and let others be in the limelight.

Who of all things

And if for help
Some Mothers cry,
Tis not when

It does not matter
What a son will do,
A Mother's love
For him is true.

And if this be so,

The home is a tryst—the place where we retire and shut the world out. ### *Leading German Candidates Arouse Interest In Policies*

**Hindenburg And Hitler Viewed As Leaders Of People With Widely Divergent Views Affecting Both Domestic Government And Foreign Relations**

The current German election is of special interest to Americans because Paul von Hindenburg and Adolph Hitler represent two widely divergent interests affecting the foreign policy of that republic. The conservatism of the forms and the reversal of established policies which is preached by the latter have offered an opportunity for a test of strength between the two forces, result of which is subject to speculative comment here in America.

The CHATTANOOGA TIMES, in its summary of all the candidacies, states: "Although President von Hindenburg has displayed unswerving loyalty to the Republic, he is described as being a monarchist at heart. Hitler has developed his movement around the idea of disposing of the Republic, but last week he accepted a governmental position and took an oath to support the Weimar Constitution, thereby becoming a citizen of the Republic and eligible for its Presidency. Duesterburg, backed by the German Nationalists and the Steel Helmet organization, is an avowed foe of the Republic. And Thaelmann, who is a Communist, is no less eager than Hitler to bring about abandonment of the country's present form of government."

"Venerable Paul von Hinderburg," according to the CINCINNATI TIMES-STAR, "embodies the traditional virtues of his nation. In peace as in war he has never failed in courage, in industry or in stern loyalty to the Fatherland. His determination to carry on at the age of 84 is no less heroic than his military service that spanned the victory of 1871 and the defeat of 1918. Though he has lived only half of Hindenburg's years, Adolf Hitler represents just as completely newer elements in German life—a taste for bold experiment, a passion for display and a spiritual revolt born of despair. There is something of the adventurer in Hitler's make-up. An Austrian by birth, he was a middling artist and an interior decorator before he joined the German army and won a medal for valor. Since the war he has been the firebrand of German politics, though only recently did he become a citizen. His speeches, like his political conduct, have been clever but impetuous and often absurd. Mussolini's mimic, he has mastered the modern art of publicity. But his best publicity agent is Genmany's economic distress."

"Von Hindenburg has been about the only agreeable post-war surprise the world has been vouchsafed," thinks the WASHINGTON EVENING STAR, and that paper adds: "The nations shuddered when a monarchist and a militarist came to power in 1925. Many people throughout the world, no doubt including a large number in Germany, conjured up the vision of a restored Hohenzollern in spirit and theory, if not in actuality. They reckoned without their Hindenburg. When the hero of the Masurian Lakes stood on the steps of the Reichstag building and took the inaugural oath of office, swearing devotion to the Weimar Constitution, he plighted his word to the German people that their republican future would be safe in his hands. He has kept the faith. The Reich and the world are the better for his refusal to temper his course to the winds that have raged around him."

"Even in the days of Armageddon," recalls the OKLAHOMA CITY OKLAHOMAN, "Americans had a certain admiration for Hindenburg. They at least admired the military capacity of the man who conquered the Russian armies at Tannenberg and held the western lines of Germany against an embattled world. Since hostilities came to an end the western people have seen their admiration for the aged German increase vastly. They admire the way in which he assumed control of a war-wasted nation and became the constructive Washington of his people instead of a self-centered Mussolini. Most military men make a mistake when they assume civic position after a successful military career. But in this respect Hindenburg is entirely unlike the others. He has added to his fame as [illegible] republic."

Pointing out the fact that one of the important forces in the election campaign has been the interest of the people of East Prussia, the HARTFORD TIMES remarks that "the Polish corridor is a delicate question, and is likely to remain so for some time." The ANN ARBOR DAILY NEWS emphasizes the dangerous policy of Hitler in his plank declaring for "German freedom from foreign slavery," and suggests the possibility of "provoking the French to action." The LINCOLN STATE JOURNAL, on the other hand, refers to rumors that "Hitler is not radical enough to suit the group that has surrounded him," and that "he is now a pawn in their hands rather than a leader of the Fascist movement in that country."

Seeing significance in the fact that von Hindenburg "entered the contest as a non-partisan, at the request of many organizations throughout the land," the SAN ANTONIO EXPRESS comments on Hitler: "He was born in Austria and served in the German army during the Great War. His adherents mainly are drawn from the 'white collar' elements, small farmers and university students. Hitler incessantly denounces the Communists as highly dangerous to Germany, yet he often aids them indirectly by attacks upon the Bruening government, that is thoroughly bourgois."

By EDGAR A. GUEST

**THE GOLFING PARSON'S TRIO**

A golfing parson said to me,
As we stood chatting on the tee,
"This club of mine's not much to see,
'Tis sadly out of date,
The shaft is bent, the winding frayed;
But many a game with it I've played,
And many a shot with it I've made,
Not far, but fairly straight.
You see, for sport or worldly strife,
With three old things I'm fixed for life

"I have my Bible, old and torn,
With here and there its pages worn,
It serves me still each Sunday morn
As would a Bible new;
My prayer book, thirty years or more,
From day to day I've fingered o'er
No modern prayer book in the store
Could better see me through.
And likewise, though it isn't classy,
I have this ancient, battered brassie.

"Thus three true friends for life's success
Exultantly I now possess
I could not get along with less
But have no wish for more.
My Bible serves its noble end,
My prayer book comforts as a friend,
Upon this brassie I depend
For all a brassie's for.
'Old Faithfuls' are these precious three,
All growing worn and frayed with me."

# Final Approval Of Federal Aid Roads Is Made

Announcement Of List Of Roads To Be Improved Will Be Made Shortly

## FINAL DECISION IS WITH PINCHOT

(International News Service)

HARRISBURG Mar. 11.—Final approval of federal aid road projects to be improved in the present year will be announced in the near future, attaches of the governor's office said today.

Engineers of the department of highways sent a list of those recommended for improvement to Gov. Gifford Pinchot several weeks ago. The final decision in each case rests with him.

Because the total mileage to be improved will be determined by the total funds available, both federal and state, all projects included in the program will be announced at one time.

The department so far has made no plans for road construction or improvement other than the projects which will be financed partly with federal funds.

# City Not Liable For Lewis Accident

**People Must Cross Thoroughfares At Street Intersections**

Robert White, solicitor for the city, today formally advised council, which convened at the city building, that, the city is not liable for the accident which befell John Lewis, Galbreath Avenue.

According to Lewis he tripped, fell and was injured while crossing East Long Avenue.

He told council that a rail extended too high and it was this that caused him to fail.

Physician bills and loss of work caused him to ask council for a settlement amounting to $105.

**Conducts Inquiry**

Inspector Henry Dysart reported that an investigation showed Lewis had not crossed East Long Avenue at an intersection.

White opined to council that the city is under no obligation to keep the cartway 'perfectly smooth.'

His opinion further stated that citizens are expected to cross thoroughfares at intersections.

This Mr. Lewis evidently did not do, according to Mr. White's opinion after which he said:

"The accident occurred in daytime and I do not see how the city is liable."

# Royal Mounted Police On Trail

Follow Reported Kidnaping Clue At Vancouver, B. C.

## HINT PLOT HATCHED MORE THAN YEAR AGO

(International News Service)

VANCOUVER, B. C., Mar. 11.—A "valuable trail" in connection with the Lindbergh kidnaping has been uncovered in Vancouver, members of the Royal Canadian Mounted Police indicated today.

American and Canadian authorities sought handwriting specimens of a mysterious Fred Short, whose name was suddenly injected into the case yesterday.

The police intimated that as a result of local developments an arrest "would likely take place in the United States."

Further information, however, was strictly withheld.

Officers likewise declined to amplify a hint that "this kidnaping plot was hatched in Vancouver more than a year ago."

Mrs. Grace Vanderweg, who was questioned by American officers and Canadian constables regarding Short, revealed the investigators had "gone through all letters, cards and photographs" in her houseboat in an effort to find samples of his handwriting.

Mrs. Vanderweg, during the course of a three hour grilling, said she told the officers she knew a Fred Short in Australia where her father raced horses.

"The last I saw of him was in 1930," she declared.

Mrs. Vanderweg, wife of Jack Vanderweg, known in wrestling circles as "Tiger Jack" Whitey, said she was also asked if she did not remember meeting "Red" Johnson in 1930 when the Lamont Yacht, aboard which Johnson worked, was in Vancouver.

Johnson is the asserted friend of Betty Gow, nursemaid in the Lindbergh home.

Mrs. Vanderweg declared she never met Johnson. She also flatly denied knowing Miss Gow.

Officers attempted to refute Mrs. Vanderweg's denials by producing a Vancouver financial clerk, whose identity was kept secret.

This clerk, it was reported, declared that in 1930 she had been introduced to Miss Gow here by Mrs. Vanderweg, then Miss Elsie ("Babe") Jeffries.

Mrs. Vanderweg, however, insisted she had never met either the financial clerk or Miss Gow.

"Far from having been a friend of Betty Gow and 'Red' Johnson when the Lamont yacht was here," she said, "I do not recall the boat and I certainly never met Miss Gow or Johnson in my life."

Considerable significance was added to the local situation when police admtited they had been in communication with New Jersey authorities.

# Cut Tax Millage At New Wilmington

While most of the municipalities of the country are experiencing great difficulty in making ends meet, even when cutting their overhead expenses to the lowest possible minimum, in order that they may continue to operate with the same amount of tax that has been raised for the past several years, New Wilmington, the widely known home of Westminster College, is cutting the taxes for the operation of the borough this year, two mills under that of last year, running its affairs smoothly and without hitch on much less revenue that for many years past.

Owing to the fine business administration of its affairs, it is not only operating on less money each year, but it has a surplus at the present time, which it is planning to use in purchasing some of its unmatured bonds, if they can be secured at a discount.

At the November election last year, the citizens of the borough voted to issue $40,000 worth of bonds, the proceeds of which are to be used in purchasing the plant and system of the company that has been supplying New Wilmington with water for many years.

These bonds are still unsold, but effort to sell them has been delayed owing to the condition of the bond market, which would not make the sale of the best advantage of the town. Their sale will be effected in the immediate future and at a time that is beneficial to New Wilmington.

When this issue has been sold and the balance of the bonded indebtedness, which is $18,500 less whatever amount that may be discounted and purchased now with funds on hand, the town will still not have much to worry about and besides, it will own its own water system.

A comparison of the efficiency that has been inaugurated in the management of the affairs of the borough is seen in a comparison of the tax millage, assessed valuation and money raised for borough purposes for the past ten years with present situation.

In 1922 the tax millage for borough purposes was 19.8 mills, the assessed valuation was $543,796 and the tax levied amounted to $10,770. In 1927, the millage was 17.8 mills, the assessed valuation $606,413 and the tax levied amounted to $10,794.

Last year, the millage, the lowest in the past ten years, was 11.6 mills, the assessed valuation $667,325 and the tax levied $7,740. For the present year, the millage has again been reduced being but 9.6 mills on an assessed valuation of $671,060 and tax levied amounting to $6,434.

Assessed valuations in New Wilmington are based on 75 percent of the assumed real value of the property assessed. New Wilmington has a twenty-five mill tax for school purposes, which is much lower than most of the other districts of the county that would compare with it.

## PHILA. LABORATORY CERTIFIES NEW SHREDDED BISCUIT

**Kellogg's WHOLE WHEAT Biscuits Pronounced Very Rich in Food Value**

One of the reasons for the popularity of the new Kellogg's WHOLE WHEAT Biscuits is the food value of this tasty ready-to-eat cereal. The improved Kellogg's biscuit is "pressure-cooked" by a special process that *bakes in* delicious flavor and retains all the food elements of the whole wheat. As a result, the Medical Arts Laboratory of Philadelphia, after careful analysis, now certifies every package for food value.

The new Kellogg biscuit also offers several other distinct improvements. The biscuits are a more convenient, economical size. Two just fit the cereal bowl—and you get 15 to the package instead of the usual dozen.

And every biscuit is toasted a golden, rich brown on both top and bottom—not just one side. This makes it crisper and tastier than ever before. Also, "pressure-cooking" and "double toasting" make Kellogg's WHOLE WHEAT Biscuits easier to digest.

The new Kellogg's biscuit is delicious with hot or cold milk or cream; extra appetizing with the addition of fruits or honey. Local grocers are featuring this improved ready-to-eat cereal. It may be identified by the name, Kellogg's, and the familiar red-and-green package. Made by Kellogg in Battle Creek.

# Business Women Play Important Part Today In World Of Finance

## Local Women Of Opinion Business Well Versed On How To Save

"If women have been tempted to consider themselves of negligible importance in finance they will be heartened to learn that they control 40 per cent of the country's wealth," Mrs. Geline Bowman, national president of Business and Professional Women's clubs, has stated during this National Business women's Week.

Further figures presented by the national president quickly dispel any vague impression that women have little to do with the country's finances.

And the New Castle organization of business women agrees, unanimously. The members are firm in their stand that women in business are saving and investing money wisely.

When asked this week by a News Representative, as to whether business women have the ability to save money and invest it where it works for them, they answered "Yes!" Several added the comment that just now however money enough to meet expenses is scarce.

Miss Helen Wilson answered—"They do know how to save and invest. Statistics prove that."

Miss Nancy Bechtol said—"Yes. They are interested in saving for the future. Most women are very conservative in investing money and would rather have it safely invested with less return."

"Yes, on consultation with conservative financiers," Miss Suzanne Beatty, Pittsburgh attorney, believes.

Mrs. Sara McCune, president of the club, replied in the affirmative, adding that "they need and I think usually get competent advice."

These opinions of the local business and professional women are verified by the national president's statment that "Women today constitute from 35 to 40 per cent of investment bond house customers. They are beneficiaries of 80 per cent of the life insurance policies in force in the United States. Moreover, they are custodians of many large fortunes, for women millionaires are as numerous as men. Obviously, then, they have real concern with economics."

**Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.**

'S tough to admit it mates, but winter seems to be with us in earnest. The latest and surest sign that it is winter is the fact that John B. Haley was seen with an overcoat on yesterday.

Long before it was collegiate to go without a hat in the dead of winter, John B. had adopted a style of his own. Vests were out with him and overcoats were used only when the thermometer got low down. When he wears one in March, it looks as though the groundhog is due for another snooze.

Saw a chap take a chance on his life and limb Thursday at noon at Mercer and Washington. The wind lifted his chapeau and he dashed after it never stopping to see if any cars were coming. There was.

Fortunately the driver had brakes on his car and stopped with a grinding of chains and a flurry of snow. The man got his hat. Nearly wrote his own ticket to the hospital.

Creight Logan is in the hospital again, the Jameson Memorial. Drop him a card so he'll know you remember that he isn't on the force temporarily.

Apparently the Lathorp street youngsters believe they have as good a sled riding street as the ones farther out the East Side. At the corner of Lathrop and East Washington last night it looked like a convention of kids. Every kind of a sled known from a toothpick to a bob. Not much pitch to the street but a lot of fun.

That idea of a motorcade to Pittsburgh next Tuesday night sounds like old times. The game should be worth the trip if the reports on Braddock are correct. They have what it takes to make a real team and the local basketeers have an evening's work cut out for them.

Better plan to go in, for the Braddock youngsters will have plenty of rooters on hand. Not that they count any points for rooting, but it does help the boy down on the floor to know that his home town fans are out there rooting for him to win.

## Threatening Letter Is Basis Of Suit

### Girl Said To Have Been Involved In Case Of James Schrivelli

An alleged threatening letter, which it is claimed was written by James Schrivelli of Hillsville to Pete Genro, of the same place, was the basis of a surety of the peace case heard in court by Judge R. L. Hildebrand this morning, in which Constable William Edwards was prosecutor.

It was claimed that the letter was written following trouble over a girl, in which both the men appear to have been interested. It is claimed that Schrivelli gave a boy two cents with which to mail the letter, but the lad, having an eye to business, saved the two cents by delivering the letter personally.

Schrivelli denied that he had any intention of doing Genro bodily harm.

Another surety of the peace case was that of Anna Halesky against John Halesky in which the prosecutrix claimed the defendant had made threats. This he denied.

**'NIP' TRAINS PUSH WAY THRU DRIFTS**

Heaped snow drifts threatened for a time to hinder the passage of Pennsylvania railroad freight trains in one or two deep cuts of the New Castle-Stoneboro branch, but reports at noon said all difficulties had been cleared.

The drifts piled high on the right-of-way near Coulson and Jackson Center.

He doesn't look a day over fifty. And feels like forty.

*At the age of 62.*

That's the happy state of health and pep a man enjoys when he gives his vital organs a little stimulant!

When your system is stagnant and you feel sluggish, headachy, half-alive—don't waste money on "tonics" or "regulators" or similar patent medicines. Stimulate the liver and bowels. Use a famous physician's prescription every drug store keeps. Just ask them for Dr. Caldwell's syrup pepsin.

This appetizing syrup is made from fresh laxative herbs, active senna, and pure pepsin. One dose will clear up almost any case of headache, biliousness, constipation. But if you want to keep in fine shape, feel fit the year 'round, take a spoonful of Dr. Caldwell's syrup pepsin every few days. You'll eat better, sleep better and feel better in every way. *You will never need to take another laxative.*

Give the children a little of this delicious syrup two or three times a week. A gentle, natural stimulant that makes them eat and keeps the bowels from clogging. And saves them from so many sick spells and colds.

Have a sound stomach, active liver and strong bowel muscles that expel every bit of waste and poison every day! Just keep a bottle of Dr. Caldwell's syrup pepsin on hand; take a stimulating spoonful every now and then. See if you don't feel new vigor *in every way.* Syrup pepsin isn't expensive.

# Incorrect English Will Be Warred Upon

(International News Service)

LANCASTER, Mar. 11.—The Sophomore English class at West Lampeter high school has planned a drive on "ain'ts" and "what-have-you."

The campaign is under way to abolish the use of incorrect English. The purpose of the project is to bring to the attention of the pupils their grammatical errors.

The first step was to collect a list of the abused and misused expressions. Members of the sophomore class did some sleuthing of their own and turned in a list of 85 incorrect expressions.

These mistakes were grouped under seven classifications according to their constructions. During recitation periods, each person in the class composed ten sentences illustrating the correct usage of the words, clauses and phrases that were employed incorrectly. One of the girls was made the official detective, reporting all fractures of grammar she heard.

A daily trip to the English room to see if one's name was on the blackboard became a daily habit among the students. A name on the blackboard was an indictment for using bad English.

Some of the expressions found used frequently were: "Lemme, gimme, hey, huh, ana, ida, yeh, hafta, git, wouldja, mighta, ain't, got no, gonna and naw."

# Report 202,576 Men Working As Result Of Drive

### National Campaign To Get One Million Back At Work, Progressing

### NEW CASTLE HAS PLACED EIGHT

(International News Service)

NEW YORK, Mar. 11.—Already 202,576 idle persons have been placed in jobs in the nation-wide drive of the united action for employment group, figures revealed today.

The 200,000 mark was passed when 150 cities in 40 states reported 18,064 more wage earners were put to work.

This was the largest single day's tabulation since the campaign began.

**Goal Is Million**

A goal of placing 1,000,000 workers back in jobs before the end of the drive was set for the campaign which is sponsored by the American Legion, the American Federation of Labor, the Legion Auxiliary and the Association of National Advertisers.

An appeal to the 5,000 towns of the country which so far were not represented in the movement to join the country-wide effort to obtain jobs for the unemployed was issued today by Mark T. McKee and Carl Byoir, executive director and director, respectively, of the group.

"Get going. Others are doing the job, why not you?" The message to these communities said.

**Minnesota Leads**

In the latest reports, Ohio led the states with 2,702 jobs found in nine communities, New York State was second with 2,301 in 12 communities and Minnesota third, with 1,956 jobs in seven communities.

To date, Minnesota still leads the other states with a grand total of 21,901 jobs provided for the unemployed. New York remained second with 20,873, and Wisconsin third with 16,170.

**New Castle Eight**

Philadelphia, Mar. 11.—A total of 184,512 persons have been employed in the United States since the beginning of the employment campaign, James J. The ashes were placed on the street to prevent auto accidents.

# ORDER SEVERAL STREETS REPAIRED

### Abandoned Rails To Be Sold By City According To Proposed Bill

Council met today in the city building where an ordinance was introduced by Director Treser later reported favorably from committee and ordered printing pending passage finally which provides for the removal, sale of rails and appropriation of $7,500 for street repairs in North Beaver, Hamilton street and East Long avenue.

Under the provisions of the bill the director of streets is authorized to remove the rails and the city clerk is authorized to offer them for sale at the highest bid. The rails are abandoned equipment formerly owned by the New Castle Electric Street Railway in the three thoroughfares.

The $7,500, received from the company in full settlement for all claims of the city in those thoroughfares and also for any amount due the city growing out of West Washington street paving, is to be used to repair the specified lanes, the money having been paid already by the company.

# Declares Firemen Failed To Respond

### David H. Kay To Protest Reported Refusal Of Firemen—Boilerhouse Burns

Formal protest against New Castle's fire department will be lodged with city council early next week by the National Stone company here, whose Neshannock creek stone quarry boilerhouse and storeroom was destroyed Thursday night by flames at a loss of $6,000, it is stated today.

President David H. Kay, in a statement today, said he would personally go before the municipal authorities to learn why the city's fire men failed to respond to two calls made by a quarry neighbor when the fire was discovered

"The neighbor, who lives just below the quarry, phoned Croton and Central stations," Mr. Kay declared. "They refused to answer the alarm." The stone company intends to seek full explanation for the refusal, it was indicated.

The blaze, for which no cause could be determined, totally destroyed the quarry's boilerhouse and storeroom along the Pennsylvania railroad right-of-way, leaving considerable damage. The quarry's building supplies were demolished.

"The stone quarry itself is located in the city's third ward, approximately 200 feet from the end of the city line," explained Mr. Kay. "Fire apparatus could easily have gained access to the fire."

Whether the plant buildings would be rebuilt immediately was not learned. Mr. Kay is devoting his time to investigating the entire damage.

No watchman was stationed at the quarry when the blaze occurred, although one is employed there part-time.

## Rose Ave. Parents Hear Dr. Rogers

### February Meeting Of Parent-Teacher Association Is Held In School Thursday

The Rose Avenue Parent-Teacher Association met in the auditorium of the school Thursday afternoon at 2:30 with Mrs. Oliver Hazen presiding.

The program opened with the singing of a group of songs by the audience, under the direction of Mrs. A. C. Bernard, with Miss Mildred Gresham at the piano.

Mrs. Manley Bates, chairman of the program committee, had a splendid program prepared for the afternoon, and introduced Dr. Mildred Rogers as the guest speaker.

Dr. Rogers took as her topic, "Health and Play" and stressed the fact that organized play is of great benefit in the life of a growing child, but she also said the child must be taught to play fair and to share with others.

A clever health playlet was given by the pupils of the school, under the direction of Lucile Lutton and Genevelieve Schugars, with Paul McCandless, Ruth Southworth, Norman Graziani, Hazel Collum, Billy Davis, Norabelle Wolford, Anna Stevas and Lucy Solomon in the cast.

The program closed with an interesting talk by Miss Iretta Dart, principal of the school.

A brief business session was held at the close of the program and the attendance contest continued, with Miss Verlee Armstrong in charge.

## "Jesus Comforts His Diciples"

"Brass Tacks" On The Sunday School Lesson

### The Golden Text

Peace I leave with you: my peace I give unto you: not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid.—John 14:27.

By DR. ALVIN E. BELL

(The International Uniform Lesson for March 13 is John, Chapters 14 to 17, particularly John 14:1-8, the Golden Text being 14:27.)

This fourteenth chapter of John is a favorite chapter with most Christians. It has been called "the comforting chapter." In it is recorded our Lord's conversation with his disciples in the upper room about "the table of the Lord" on the night before his death. They were troubled over his announcement of his death, and he spoke these words for their comfort and for the comfort of all his bereaved friends through all the ages since.

**The Untroubled Heart**

Jesus never promised his disciples exemption from trouble. On the contrary he predicted they would meet with much tribulation. He promised no untroubled world, but he did point the way to an untroubled heart in the midst of a troubled world. "Let not your heart be troubled: believe in God, believe also in me. In my Father's house are many mansions; if it were not so I would have told you; I go to prepare a place for you. . . . Let not your heart be troubled, neither let it be fearful."

**The Way of Faith**

The way to the untroubled heart in a troubled world, according to Jesus, is the way of faith: "Let not your heart be troubled: believe in God, believe also in me." But what shall we believe about God? Who is he like? Jesus answers, "He is like me." "If ye had known me, ye would have known my Father also: from henceforth ye know him, and have seen him. Philip saith unto him, Lord, show us the Father, and it sufficeth us. Jesus saith unto him, Have I been so long time with you, and dost thou not know me, Philip? he that hath seen me hath seen the Father; How sayest thou, show us the Father? . . . Believe me that I am the Father, and the Father in me." If God is like Jesus we can believe in him, and his faith will pave the way to an untroubled heart.

**The Way of Hope**

This untroubled heart in a troubled world is found by the way of hope opened up to us by Jesus. "In my Father's house are many mansions; if it were not so, I would place for you, and if I go and prepare a place for you, I come again, and will receive you unto myself; that where I am, there ye may be also." No clearer picture of heaven is needed than this, a place prepared for us in his presence. No more comforting hope could be held out to wean the sad hearted from a troubled world. The brightness of our religion's future tense brightens even its present and past tenses.

**The Way of Love**

The untroubled heart in a troubled world is found by the way of love of Christ for us and of us for Christ. He wants us with him as truly and fully as we want to be with him. "That where I am there ye may be also." Heaven to him would be incomplete without us. "If ye love me, ye will keep my commandments, and I will pray the Father, and he shall give you another Comforter, that he may be with you forever. . . . I will not leave you desolate. I come unto you." These ways of faith, hope and love center in Christ. So the way to the untroubled heart lies not just in "the Jesus way of living" but in "Jesus the way of life," as he, himself says, "I am the way, and the truth, and the life."

# "Medicine" Dr. Myers Would Give If He Were The Family Physician

### Psychologist Visions Aid He Might Give, If He Were A Doctor, In Adjusting Home Relations

By GARRY C. MYERS, PH. D.
Head Division Parential Education, Cleveland College, Western Reserve University.

I have often wished that I were a family physician well trained in medicine, for it seems to me the family doctor has a peculiar opportunity to give much wholesome, workable advice on family relationships.

I should have on hand barrels of flour pills, since most people, even those otherwise very intelligent, would not think they had their money's worth unless they got some "medicine."

Hundreds of patients would get these pills and with them get considerable advice about their home relationships. Of course, I should know very well that much of the advice would not be followed. But some of it would be. The family doctor hardly realizes how much weight his word bears. I am not talking about specific diseases, such as pneumonia, typhoid fever or measles, for which specific drugs, it seems, are desirable; but of the larger group of human ills, most of which are due to unnecessary worries, drudgery or fairly unhappiness.

For some, a few days a week away from the family, if at all possible, would be prescribed, particularly for mothers, and the prescription would be written out in detail and sent to the father or read to him. For others a wash woman, or a woman to help for several days or all the time. I might have a sneaking inner urge to withhold such advice since I should know that my fees would be pretty surely diminished if my advice were to be carried out. More laundry bills often mean fewer doctor bills.

* * *

Provided the family felt wholly unable to hire such help, I next would suggest to the father, if he were fairly strong, that he could do much of the housework, otherwise try to persuade the mother to neglect many of the things she is now doing, making her housekeeping simpler, finding ways to prepare good meals with less labor, and to leave undone many of the things she now does. An afternoon nap for her would be prescribed and a picture show or two a week, or some other recreation, preferably with father and mother together, and that dad and mother both read the funnies faithfully and chuckle over them with their children, or engage in other types of humor more to their liking, tell many jokes, reciting many humorous experiences.

To some fathers I should want to give a prescription addressed to the mother, explaining to her in detail how she could lessen his burdens and make him happier. There are some fathers who not only do a day's work in the field, office or market, but another day's work at home. When to do so is a necessity, they are to be admired for sharing the load of the family. But not all mothers are good wives; not all bear their due share of the family cares in a sportsmanlike manner. There are some mothers who make slaves of their husbands, have no smile or cheer for them, have nothing but a nagging tongue with hounding commands and condemnations.

Skilful family physicians easily win the confidence of their patients. With broad insight into human relationships they soon learn a great deal about the human sources of many troubles, even of many physical ills. Sometimes the poor management of the children is the real trouble to be diagnosed. Who better than the family doctor ought to be able to diagnose these ills and prescribe for them?

Curiously enough, about the only useful thing the average medical school does not teach is psychology of human behavior, child guidance, and family relationships. As soon as our medical schools teach more psychology of this sort, most quacks will have to take to the woods. Of course, there always will be enough gullible people to attract a few charlatans. Most of us at best are pretty easily fooled.

# Dental Hygienists Is New State Profession

(Special To The News)

HARRISBURG, Mar. 11.—A comparatively new profession is being developed in Pennsylvania, according to Dr. C. J. Hollister, chief dental division, state department of health. Its personnel is entirely composed at present of young women. They are called "dental hygienists" and their business is to teach people—especially young people—how to take care of their teeth.

This new profession is an outgrowth of some of the experiences of this and other states where practical experiments proved that the teaching of school children by specially trained workers how to care for their teeth over a period of five years resulted in a reduction of 50 per cent in the number of cavities in the molars of young people so treated.

This young lady, styled a dental hygienist, is not by any means a dentist. She extracts no teeth. She places no fillings. She does not even attempt to diagnose mouth conditions, leaving that to the family dentist, where the work naturally belongs. Her equipment is a good toothbrush and a thorough knowledge of how and when to use it. And the great purpose of her service to children is to transmit this expert knowledge to them.

She is more than a "tooth scrubber", however, although she is a past master in the gentle art of brushing the teeth. She must be able to impart her knowledge to her patients—if such the children may be called. Her approach to the child is different from that of other health or welfare worker. The child is alone with her, and finds itself in a dentist's chair. Hitherto, such a chair has meant an unpleasant experience, doubtless.

But the dental hygienist is wise, and so this experience is pleasant. Teeth are brushed as they have have never been brushed before. Tactfully, the operator wins the child's confidence, and interests it greatly in the beauty and attractiveness of a good set of pearly teeth.

The desire for good teeth having been instilled by the young lady, who bears a new professional title, she can safely advise concerning what to eat and how to eat it, and give instruction in principles of general hygiene.

## MY NEW YORK

BY JAMES ASWELL

By Central Press

NEW YORK, Mar. 11.—Marginalia of a Madhattanite:

A new kind of beggar is appearing along Park avenue and the limousine links . . . He never solicits, never verbally entreats a penny . . . He "acts out his touch" . . .. His art is to appear so pathetic no one can pass him by.

One practitioner of this post-graduate pan-handling makes Lexington avenue in the Forties his hunting ground . . . I have seen him a dozen times, a tall, dignified man in the middle years whose unhatted head carries a shock of snow-white hair . . . He thrives in the snow or in the rain, always hatless, and several friends of mine actually have begged this professional moocher to accept donations . . . I understand he is in reality a competent actor of 15 years ago . . .

Funny how the boulevards murmur with election talk . . . But of course the kidnaping of the Lindbergh baby exploded into the papers and chatter of the town more thunderously than any event in years . . . Maybe I'm wrong, but it seems to me that the way certain "well known people" offered their services in the search, together with names and photographs of themselves, to the papers, was pretty transparently a bid for publicity . . . That magic and misused wand! . . .

Now the stores are gay with the promise of spring . . . Show windows bloom with bright lithographs advertising packets of seeds . . . Want-ad sections are heavy with ads of farms and summer places out Westchester and Long Island ways . . . Several of the amiably destitute Bowery gentry sell packets of seeds—pictures of flowers clipped from old magazines pasted on their wares . . .

HOW THEY EAT CAVIAR

Oddly enough, caviar, that aristocratic dish, is monopolized in production by the Land of the Soviets. . . . And there are as many techniques in the art of gobbling it as in juggling chop-sticks . . .

Vilhjalmar Stefansson smears the stuff on a piece of warm raw red meat and downs it . . .

Fannie Hurst spreads it on toast under a daub of cream . . .

Harold Bauer, the pianist, mixes it with the yellow of a hard boiled egg . . .

Konrad Bercovici simply plunges a spoon into a jar of the precious fish eggs and takes his dose au naturel, which is, incidentally, the method most in favor among the Russians, who ought to know . . .

Finally, when you see those bowls of luscious large-grained caviar in movie banquet scenes you are looking at bird shot.

NICKNAME

Perhaps the best-known man in the neighborhood of Cherry street, which is shortly to be excavated by Fred French for his apartment development, is, next to French himself, one Achilles Papademetrakopoulos, who, for purposes of simplicity, in the strange modern activities descending upon the neighborhood, has had his tag simplified to "Kill Papa."

SPECIALIST

The strangest casting bureau in Hollywood (and one of the oldest) is the Alexander Sanboa place, which handles only brown-skinned performers. His smallest group of native players is Hawaiian. There are only 14 of them available for screen work in Hollywood. Remember that next time when you see one of those colorful Waikiki mob scenes.

But here's the pay-off of the story: The hardest job Mr. Sanboa faces is to procure Indians who can ride horses!

OVERHEARD

Two tuxedoed waiters near my table in Schrafft's were discussing the merits of a noted coloratura to the neglect of my water glass. Their accent, though I'm no expert, sounded authentically Oxonian. One said:

"Oh, but she hasn't even the vocal equipment necessar'ee for vaudeville."

END-PIECES

For some reason a single atmosphere usually pervades all the dining rooms of a big hotel . . . This is not true of the St. Regis, where each banqueting salon has its characteristic aura—and menu . . . I am attached to the luncheon music and the frozen custard of the St. Regis Egyptian room . . .

Some of the tongue-twisters which radio studios feed to would-be announcers: Attache, perspicuity, illustratively, pituitary, facade, column, reconciliatory, aviator, debutante and Houston . . .

A new evening tabloid is scheduled for birth in Manhattan in June.

## Assault Charge Is Placed Against Man

West Virginia Man Held For Court For Attack On Governor's Nephew

(International News Service)

KINGWOOD, W. Va., Mar. 11.—Charged with felonious assault, J Walter Childs today was held for the March session of court as an outgrowth of the attempted suicide of Clyde A. Conley, nephew of Gov. William G. Conley, on Dec. 15 last.

Childs was indicted by the grand jury on the felonious assault charge. He is alleged to have struck Conley on the head with a steel poker, during an argument last November causing mental derangement.

The injuries sustained by Conley, the state claimed, caused him to fire four bullets into his head on Dec. 15 in an attempt to end his life.

LIGHTS AT CONFESSIONAL

(International News Service)

SOUTH BEND, Ind.—Red and green lights have been placed in the new chapel in Dillon hall at the University of Notre Dame for the confessional box. The lights are operated automatically as the penitent kneels and rises. The new arrangement is believed to be the most modern device of its kind.

(International News Service)

COLUMBUS, O., Mar. 11.—Governor William H. (Alfalfa Bill) Murray of Oklahoma today entered his name in Ohio's presidential preference primary.

He stimultaneously issued a statement which politicians interpreted as a warning to Ohio Democrats against allowing Governor George White to deliver the Ohio delegation to Governor Franklin D. Roosevelt at the Democratic National Convention.

# Fishermen Will Be Rescued In Gulf Of Finland

**Over Half Of 700 Stranded On Ice Floes Have Been Rescued By Icebreaker**

(International News Service)

HELSINGFORS, Finland, Mar. 11 Rescue of approximately 400 fishermen stranded on ice floes in the eastern part of the Gulf of Finland was regarded as virtually certain today as icebreakers continued to take the stranded men aboard and thickness of the ice prevented its drifting far out to sea.

Nearly half of the 700 originally cut off from land in extremely harsh weather had reached safety today. Many others were believed safe on several of a number of islands dotting that part of the Gulf.

# JAPAN OPPOSES LEAGUE PLAN

**Will Not Approve Leagues Proposition On Sino-Japanese Settlement**

(International News Service)

TOKYO, Mar. 11—The Japanese government will oppose the Sino-Japanese resolution drawn up by the drafting committee of the League of Nations assembly by not voting upon it when it is put before the assembly as a whole.

The foreign office said today it had instructed its Geneva delegate accordingly, giving as its reason the contention that Article XV of the League covenant, under which the assembly was convoked, is inapplicable.

The resolution, which upholds the article, applies to the Manchurian dispute as well as that at Shanghai, while Japan believes that the Manchurian argument will have to be settled separately.

## THIEF TAKES POISON AFTER CONVICTION

UNIONTOWN, Pa., Mar. 11.—Convicted of being one of the two men who held up and robbed Donald Wilson, local gas station attendant and sentenced to 18 month to the Western penitentiary, Charles W. Myers, 22, of this city, drained a bottle of acide and is in a serious condition in the Uniontown hospital. As Myers started across the "bridge of sighs" leading from the courthouse to the county jail, he pulled a bottle from his pocket and before he could be stopped, drank the contents. His screams of agony could be heard all through the crowded courtroom.

## FAMILY TRAPPED IN BURNING HOUSE

DARLINGTON, Pa., Mar. 11.—Firemen from Darlington, Patterson and Chippewa townships fought a stubborn fire today that destroyed the 7-room frame home owned by Louis Krepps along the Darlington road. Members of the family trapped in the second floor bedrooms were rescued by neighbors. No water was available and firemen used chemicals. Citizens also formed a bucket brigade and the blaze was confined to the basemetn and first floor. So dense was the smoke that time and again firement were forced out of the house, damage is estimated at $5,000.

# HEAT AND FOG MADE HIM JUST A WRECK

**Remarkable Experience of Steel Worker in Land of Promise**

Sick, unable to earn his living, with a large family dependent upon him, made all talk of America as a land of promise seem a mockery to one man. But the discovery of a way to get well, then his quick restoration to health and strength, meant the golden sunrise of promise in his adopted home to Fred Petrelo, a steel worker in the mills at Monaca, Pa., whose remarkable experience has created quite a stir among the people of his community. Here is his own story:

"Too much heat in the mill, too much fog and chill outside, cut me down from a husky into just a wreck. First I got a cold, then another and another, until I had a bad case of catarrh. That knocked out my stomach, and then of course my liver and kidneys were affected. I got so weak I could not work. My food would not digest, and I did not want to eat, for it meant gas or pain every time. My bowels were obstinate and moved only when I took hard physics. I suffered headaches and my body ached with pains like rheumatism—and all the time the pressing problem of earning a living came down hard on me. I wished again and again I had not come to America. Neither climate nor food had agreed with me, and while I made more money when I worked I soon got so that I could not work.

"Things looked mighty bad for us. I was in bed more than half the time, and almost helpless the rest of the time. When I was most despondent I heard of a marvelous new medicine that some of my mill buddies had used. They said it was like the medicines of the old country, and did them more good than anything else they knew. I asked the druggist about it, for I had no money to waste. He said that it was made of herbs gathered in different parts of the world, and that many people declared it was the best medicine they had ever used, since it was different from most medicines as it required no pills. So I bought a bottle and tried it. At the very first it made me feel better, for I could feel it cleaning out my system. But I soon found that this great medicine—World's Tonic—was much more than a cleanser. It stopped my stomach trouble in a few days; it cleared up my catarrh, and it cleaned out my whole system.

"Then this new World's Tonic began to build up my strength. Every day I gained in vigor, so that in a month I became a well man. Then I got my old job back, and for months now I have kept well with an occasional dose. From the depths of my despair to the elation and vigor of fine health World's Tonic lifted me. Now America looks more than ever like the land of promise, and we are all happy again thanks to this amazing good medicine." World's Tonic can be bought at Eckerd's, McKee's, Paisley's, Smith's or any other first class drug store. (B-58.)

# Medallion Is Found In Mud

**Medallion On Cleveland And Blaine Race For Presidency Found**

(International News Service)

ALLENTOWN, Pa., Mar. 11.—From the bed of the Lehigh river a steam shovel has scooped a medallion reminiscent of the bitter and colorful national campaign of 1884 when Grover Cleveland barely nosed out James G. Blaine, "the white-plumed knight," for the presidency.

George H. Gardner, local contractor, is displaying the insignia. It is the size of a quarter. On one side it bears a likeness of President Cleveland, his name, "S. Grover Cleveland," forming an arc about the head. On the other side appears a small likeness of Thomas A. Hendricks, of Indiana, who was elected vice president.

The word "reform" extends across the medallion in bold inscription. Below is a reproduction of part of the white house, with the date, 1885, on the bottom.

It is believed the Medallion was struck in Philadelphia and was distributed as a souvenir at the time of President Cleveland's inauguration. There is a hole cut through the medallion near the rim, leading to the belief that it was used by the owner as a watch charm. How it got to the bottom of the river is a complete mystery.

**PEOPLE EATING WELL DESPITE HARD TIMES**

Despite talk of hard times everyone seems to be eating well, according to a survey made recently by a leading food expert. That is because the 1932 food dollar works overtime. Steadily, since 1929 you have been able to obtain more food for the same outlay of cash. And when prices in wholesale channels were lowered, we were always glad to pass on these reductions to you.

Perhaps there is less spent on pleasure nowadays, less frills to the Sunday dress-up clothes, but—in the majority of cases—there has been little or no stinting on the vegetable bowl and the meat platter. All of which is exactly as it should be today.

# *Mrs. Humphreys Tells Of Florida Activities*

Editor, The News:
New Castle, Pa.

Movie of Florida climate:

Super-summer weather, Panama hats, sleeveless dresses, crowded shuffle-boards, populace in bathing suits taking to the lake, rush at drug store for sunburn lotions. Second reel carries warning in morning paper of storm on southern coast Texas and Louisiana.

Third ditto comes on with magnificent sunset scene. Heavy dark clouds on western horizon through which, at its very moment of disappearing, breaks the sun abnormally large and red. Glorious riot of color for the moment quickly followed by a checkening of the aforementioned clouds. As night advances indication of rising wind.

Fourth reel. Wakened from first sleep to hear sound I recognize as my smallest washtub taking its leave of the wash bench behind the kitchen. Later naps interrupted by unattached articles on back porch following. Finally fell into a more prolonged sleep, last conscious thought being the hope that the garage roof would hold. Considerable rain fall at this period.

Fifth. Wakened with the feeling of being alone in a cold, unsympathetic world. Remembered that I had turned back all but one blanket on retiring. Much more comfortable after retreiving the other three.

Sixth. Day of sunshine, cold wind and falling temperature. Seventh. Next morning awoke from dreaming that the ice man had missed the refrigerator and got the chunk of ice into my bed. Quick action of dive into slippers and thick bath robe and to building fires, with thought of thankfulness for Florida's fatwood that kindles from a match. Then business of digging out and dusting off the old long sleeved blue serge that hadn't seen service this winter.

And so it goes. The morning paper carries stories of the wind storm centering about Tampa where there is considerable damage to small water craft, of flooding by high tide, wind driven, of cottages near the coast, of damage to roads and bridges among the keys, but all in a narrow restricted area. This since Saturday evening. Now at noon Monday we are again out into the sunshine, wind almost gone and temperature rising. By Wednesday or Thursday at the furthest, we will be out again in the sleeveless dresses and bathing suits. And however clad out hats will be off to Florida with this greeting "With all thy faults we love thee still."

I had two pleasant surprises within the last week. The first was when Harry Cooper came convoying Will Elliott of Plain Grove into McKays store where we were enjoying our daily loaf. The other was yesterday when on answering a rap at the front door I found our very capable and accommodating politician, Calkins escorting a car that carried Mr. and Mrs. Watson of North Sewickley and Mrs. Patterson of Ellwood. They had driven down from DeLand to hunt me up. Mrs. Watson and I were neighbors at North Sewickley when it was "Stringtown" and it is needless to say I was very glad to see them. Mr. Elliott and Mr. Kelly who is traveling with them stopped at St. Cloud on the way to Ft. Pierce, Sebring and Lake Wales, where they visited the singing tower. They left on Friday to go to Orlando from where they would begin the return north.

We are missing the Cooper families very much. Mr. and Mrs. Ralph Cooper and their young son came down from Fayetteville, N. C. where they spent the winter to visit at Longwood, St. Cloud and Lakeland. While here they were guests of the Harry Coopers on Florida Ave. and did not let any time run to waste. Ralph soon mastered the art of bait getting and hung up quite a fishing record. He did not leave me the official figures so I won't attempt to give weight or numbers, but you can see him at Dixie Inn on his return home. But just remember that no matter how big the one was he landed, the one he lost was still bigger. Fish are like that you know, no difference where they grow. Mr. and Mrs. Harry Cooper left Friday noon to begin the trip north. They would stop for a few days with Ralph in North Carolina.

The Yoho-Wimer party are still carrying on in the fishing game and that they do not have larger catches to report is due to the fact that state laws set a limit. They have recently shifted their boats from Alligator Lake to Lake Conlin where Mr. Wimer immediately hooked the big one of the year, a bass weighing seven or seventeen pounds. Again I do not have official figures so will leave Mr. W. to answer for the size.

It seems I made a mistake in reporting our trip to Canaveral pier. Mr. Yoho was the champion that day.

We spent a day recently at DeLeon Springs by invitation of Mr. Samson one of the proprietors of the hotel there. He took two boat loads out fishing, the novelty there being that fishing is done in the river which has its rise in DeLeon Spring. Rain hindered the sport, but the catch was satisfying.

Now with just a word to the "engineer" of that popular column. When you start for that sunny island and its palm trees don't forget to take with you a tarpanlin, a mosquito bar canopy and a generous supply of "citronella" or its equivalent. Reason why? Chiggers, sand flys, mosquitos. On second thought better make your canopy of cheese cloth not too open in the mesh. Then good luck to you. Thus equipped and with a good supply of blankets, tinned foods and some drinking water you ought to enjoy your vacation.

## Judge Hildebrand At Hickory Heights

**Members Of Parent-Teacher Association Hear About Various Courts Of The County**

The March meeting of the Hickory Heights Parent-Teacher Association was held Thursday evening in the Hickory Heights school with Mrs. H. F. Robison, president in the chair.

The program opened with a minstrel, presented by Miss Erma Perrine and the pupils of the school. "Kidtown Cut-Ups" was the title of the play and the most colorful costuming, with the singing and speaking of the cast showed careful planning and training on the part of the director.

There were solos by Andrew Lee and Caroline Larue; banjo solo, Dawn Cartwright; piano duet, Evelyn Patton and Betty Robison and they were assisted by the pupils of grades three and four.

An election of officers resulted in Mrs. H. E. Grant being named president; Fred W. Fisher, vice president; Almeda Ruby, secretary and Cecil Hall, treasurer.

The speaker of the evening Judge R. L. Hildebrand of the Lawrence County court, was then introduced and he gave a most enlightening address on the different courts of the county, telling of their proceedings, the types of cases handled and the time of year each is held.

He stressed the juvenile court telling of the manner of conducting cases of incorrigible, dependent, neglected and delinquent children, bringing out the cause of their conduct, and the sympathetic manner in which the court acts as both judge and jury. He told of the homes where it is sometimes necessary to confine these children.

The April meeting of the Parent-Teacher Association will conclude the meetings for this season.

# He need never have suffered for all those years

**His headaches, poor appetite, low vitality could have been corrected by eating a delicious cereal containing "bulk" and Vitamin B**

HIS poor health resulted from constipation. It brought dull headaches to cloud his days, sleeplessness to break his nights. Office hours were handicapped. Ambition blunted.

He tried to correct his condition—with pills and drugs. He found he had to keep increasing dosage to get results. Then, one lucky day, he heard about Kellogg's ALL-BRAN.

He put this tempting cereal on his daily menu. In a month, it seemed hard to believe he was the same man. A new spring to his step. A new light in his eyes. A new outlook on life.

What makes Kellogg's ALL-BRAN so good for you? It furnishes two things needed to overcome common constipation: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. In addition, ALL-BRAN supplies twice as much blood-building iron as an equal amount by weight of beef liver.

The "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body it absorbs moisture, and forms a soft mass, which gently clears the intestines of wastes. Two tablespoonfuls daily are usually sufficient. In severe cases, use ALL-BRAN with each meal. If your intestinal trouble is not relieved this way, see your doctor.

Special cooking processes make ALL-BRAN finer, softer, more palatable. Enjoy as a cereal or use in cooking. In the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.

Captain Cunningham was reared in Wayne township until 1876, attending local schools. He then attended different educational institutions, receiving a thorough classical education, after which he attended the law department of Ohio Northern University at Ada, Ohio, from which institution he graduated in 1895. After reading law for one year in the office of Dana and Long, he was admitted to the Lawrence County Bar in 1896. Having attended a military school for three years at Ada., O., he was thoroughly familiar with military tactics and in 1898 was elected captain of Company B, Sixteenth Pennsylvania Volunteer Infantry. He was in command of his company throughout the campaign in Porto Rico, during the Spanish American war and was mustered out of service in December 1898. In the summer of 1899, he was appointed by the president as captain of Company L, Forty-second Regiment United States Volunteers and served in the Philippine Islands until 1901, being mustered out of service June 27, 1901. Upon the organization of Troop F, N. G. P. on May 11, 1904, he was made captain and served in such capacity for a number of years. ## Unusual Duck Egg Is Found

(International News Service)

MONONGAHELA, Pa., Mar. 11.—This is no "lame duck" story.

A. M. Kesterson found an egg one-half size larger than those his ducks usually lay. He cracked the shell and found the white but no yoke. But within there was another egg of normal size. The contents of the second egg were perfect.

Charges that the duck had been guilty of "hoarding" were dismissed.

## Make Plea Not To Reduce Playground Appropriation Here

### Robert Forbes Reviews Work Of Local Playgrounds Before Council Thursday

ELLWOOD CITY Mar. 11—A plea not to reduce the annual playground appropriation for 1932 was made before Council last night by a representative of the Playground Commission and interested people, R. G. Forbes.

Mr. Forbes took the initiative when it was rumored that the Finance Committee of Council would soon submit their budget for approval and that cuts in many departments were made. In order that Council might have a complete understanding of the responsibility the Playground Commission has taken upon its shoulders, Mr. Forbes reviewed the work of the playgrounds in the past years and revealed some plans for the future.

There were four playgrounds operated last year with an average attendance of 600 daily and one outdoor swimming pool with an average daily attendance of 300. A man and woman supervized the work in each playground as did a life guard at the pool. This arrangement proved most satisfactory last summer as the work and discipline in the playgrounds proved to be of the best. The same plan will be carried out this summer.

Using strict economy the playgrounds have been operated within their budget last year and a sum has been left over for future work. The salary of the general supervizer was cut 33 1-3 per cent, of the instructors 10½ per cent and 40 per cent less equipment was purchased last year than in 1930.

The commission is anxious to plan its activities for the summer and urges council not to reduce the appropriation. More will be needed if a fifth playground is to be operated. The work cannot be carried on properly if the appropriation is reduced. One factor of much importance pointed out was that many older boys participated in the playground activities last year and a larger number of these is foreseen for 1932. These will have to be accommodated.

Mr. Forbes pointed out that under a new state law the sample of the water used in the swimming pool will have to be sent to state headquarters for approval. In the latter part of last season, the filtration system was out of order. Before a permit will be granted to operate the pool the water will have to be made safe by still another method. A chlorinator will have to be purchased in order to have safe water at all times. The complete cost on this is estimated to be $750.

Later in the evening Councilman William McGlincy stated that he was in sympathy with the position the playground commission has been placed in and urged the council to seriously consider Mr. Forbe's suggestion. In response President J. E. Powell ordered the Rules and Regulations and Police Committees to study the matter and report back to council.

# *Fears Of Injuring Body Quieted By Clendening*

By LOGAN CLENDENING, M. D.

After an engineer calculates the weights that a bridge must support, he does not install beams of just exactly that strength when he begins to build a bridge. He installs beams from 10 to 20 times stronger than his highest estimates call for in order to have a good margin of safety for his structure.

What kind of a bridge, or machine, or boiler, is the human body? Have its functions been calculated on so narrow a basis that the slightest extra strain throws the whole fabric into confusion?

Many people seem to fear so. They write me wondering what will happen if they eat fish and ice cream at the same time. I have even heard of a club where the directors have paternalistically passed a house rule that no member shall be served a meal which has fish and ice cream on the menu together.

Then there are those who are afraid that they will do something which will lower or raise their blood pressure so much that some calamity will follow. And so ingrained are certain beliefs that I am almost afraid to mention the possibility of taking a bath after a meal or drinking ice water after exercise.

For all such, indeed for all of us, there is great comfort in the words of Dr. Walter B. Cannon of Harvard, in a volume called, "The Wisdom of the Body."

He points out the width of the margin of safety for many processes of the body. For instance, the normal systolic blood pressure is 110-120 millimeters of mercury, but it may drop to 70-80 (i. e., about a third) before reaching the critical level at which the volume flow in the tissues becomes insufficient. The quick restoration of normal blood pressure after a hemorrhage which withdraws as much as 30 to 40 per cent of the blood volume, shows the splendid organization of the circulatory system for safety.

This is seen also in the structure of the body in that so many of our organs are paired—one on each side—such as the kidneys. One may be lost and the other will still carry on the full functions of both. In fact, two-thirds of each kidney may be removed, without serious disturbance of kidney function.

Dr. Cannon's words restore confidence in the body as it is hoped somebody's words will soon restore confidence in the economic integrity of human living conditions.

Editor's Note: Six pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."

## *New Castle High Faces Tough Foe In Braddock High*

### New Castle Team Enters Strenuous Training For Tourney Tilt

### Tickets Are Placed On Sale Here, Reiber And Hale Are Threats

New Castle High School basketball team has entered strenuous training for their third round tourney game at the Pitt Stadium next Tuesday night with Braddock High. The game takes on the complex of a semi-final affair. Both teams are ranked high in W. P. I. A. L. circles.

Coach Bridenbaugh after glimpsing the Braddock team in action against Uniontown High hurried home and began figuring out a defense to stop that Hale fellow who jumps center. Tommy Hale was the whole works in the Uniontown game getting 16 points. Lasky is going to have his hands full next week in stopping this boy.

**Reiber Is Threat**

New Castle will counter with a triple threat man, in none other than Lester "Bus" Reiber, who is being counted upon for another of his fine showings. Reiber is easily the best guard in the W. P. I. A. L. from a scoring standpoint. In the last few games he has taken the play away from the forwards. Many of New Castle's scoring plays will be pivoted around the "blonde" guardian.

Practice sessions are not light for the New Castle team. They have been inactive since last Friday night when they walloped Zelienople High at Beaver Falls.

**Marvin or Uram**

Bridenbaugh is not sure of his starting lineup yet. He may start Teplica and Marvin or he may start Teplica and Johnny Uram, with Lasky at center, and N. Uram and Reiber at the guards. In Marvin and J. Uram Bridenbaugh has a pair of forwards about on a par. Marvin looked very good in the recent game with Zelienople.

Faculty Manager Ralph H. Gardner said today that tickets are now on sale for the Braddock game. The tickets may be purchased at the Sporting Goods Store on East Washington street or at the Senior High school.

Tickets if bought in New Castle will be 50 cents. If they are bought at the gate in the stadium they will be 75 cents. Both students and adults will benefit by getting their tickets in New Castle and not only will they save money, but will avoid a lot of jamming and confusion at the Stadium.

**Tickets On Sale**

The tickets will be kept on sale in New Castle up until 5 o'clock Tuesday evening. They must be taken to Pittsburgh when the team goes. A final settlement with the W. P. I. A. L. officials must be made at the Stadium Tuesday evening. So Mr. and Mrs. Fan the Adult and student price if the tickets are bought here is only 50 cents, the saving is worth the effort to get to one of the designated places here for your tickets.

With a break in the weather indications point to a large New Castle delegation at the Stadium next week when the two schoolboy teams tangle.

Plans for the big auto caravan are progressing nicely and it is likely that over 1,000 New Castle fans will be on hand to cheer the locals to victory.

## DEMPSEY STOPS OHIO FARM BOY

### Ex-Champ Enraged When Hank Drives Dempsey To Ropes

(International News Service)

AKRON, O., Mar. 11.—Jack Dempsey had two more notches in his string of exhibition victories today, but it took real work to get them last night.

Hank Hankinson, farmer boy from Lancaster, Ohio, drove Dempsey to the ropes with a vicious left to the jaw in the first round. But in the coming in to finish the job he left himself wide open and was floored by a right and left to the jaw.

Enraged, Dempsey came out slugging in the second round and dropped the farmer boy in 1:40 with a one two to the chin.

Tiny Powell, Dempsey's second opponent, lasted the scheduled two rounds but set some kind of a record by getting floored eight times, each for the count of nine, in the second round.

## Ford City Beats Mt. Lebanon, 40-17

### New Kensington Favored To Beat Pike Run In Tonight's Game

Ford City High won a quarter final W. P. I. A. L. game at the Pitt Stadium last night by toppling the Mt. Lebanon High team 40 to 17 in a lopsided battle. The Ford City team led throughout the game. Cullen and Willits were the big scorers with 23 of the points 40 between them. Baynor and Liberto were also high scorers.

Tonight New Kensington High will play East Pike Run in a quarter final game.

Mt. Lebanon had previously defeated Aliquippa 23 to 17, and Ford City had beaten North Union 22 to 16.

New Kensington is favored to win tonight's engagement.

New Castle and Braddock will tangle at Pittsburgh next Tuesday night in an important tourney battle with the winner likely to enter the finals for the championship.

## Cleveland Team Remains Intact

### Manager Roger Peckinpaugh Will Bank On His 1931 Outfit

### EDDIE MORGAN MAY BE BENCHED

By GEORGE BARRY
International News Service Sports Writer

NEW ORLEANS, Mar. 11—The only change in the Cleveland Indians this season as against the Indians of 1931 is in the attitude of manager Roger Peckinpaugh.

Eddie Morgan will not play first base for the Tribe unless he can show a considerable improvement in the field and there is some doubt of that. Right now, Morgan is slated to warm the bench while the job is assigned to Bruce Connatser, a youngster who played a dozen games the tail-end of last season and made an impressive showing.

If both Connatser and Morgan fail, there is Bill Sweeney, former Detroit and Boston first sacker now with the Cleveland-owned Toledo Club.

**With Same Team**

Otherwise, the Indians will take the field exactly the same as last season.

The outfielder is plenty good with Vosmik in left, Averill in center and Porter in right. This trio hit, respectively .333, .320 and .312 last season. In reserve are the veteran Jamieson and Young Seeds, both of them with averages over .300 and capable in the field.

Kamm is still at third. Hodapp is on second and Burnett, who may beat out Hodapp for second, can also be used at third and short.

Sewell and Myatt are on hand for the catching and there is a kid receiver named Pytlak from Buffalo who looks like a real comer. Wesley Ferrell heads a strong pitching staff. Others considered regulars are Hudlin, Harder, Brown, Connally and Jablonowski.

## PRINCETON HIGH TOPS VOLANT IN TOURNEY

### New Wilmington-East Brook Advance By Beating Union-Bessemer

### TWO GAMES ON TAP TONIGHT

**New Wilmington and East Brook high will likely be the finalists in the Class B basketball championship tourney at Westminster floor. Last night New Wilmington nosed out Union 17 to 14 in a well played game and East Brook was ahead of Bessemer 18 to 17 at the conclusion of their battle. In the Class C game Princeton walloped Volant 41 to 2 to advance in the tourney.**

**Princeton Wins.**

In that Princeton-Volant game the Volant boys did not score a field goal. The Princeton guards watched them like hawks and while they took several well directed shots at the hoops none of them registered. McGuire Myers, Lapinsky and Wilson led the Princeton team, in the matter of scoring. Volant's only scoring effort was a pair of fouls.

**New Wilmington Ahead.**

The Union-New Wilmington game was a fast one from the start to finish. New Wilmington took the lead in the first period 4 to 1. Union failed to score in the second quarter and the half found the score 6 to 1 in favor of New Wilmington. Both teams were playing defensive games. A flock of scores resulted in the third period with both teams crashing through with seven points. In the final quarter New Wilmington banged in four points and Union took the period with six points, but they were short three points due to their mediocre work in the first half, when they tallied but a lone point. Gilliland, Eagleson, Sharp, Lannigan and Sniezek played the best basketball.

**East Brook On Top.**

The final game on the program was a hot affair. East Brook barely managed to get to the wire ahead of Bessemer 18 to 17. Up until the whistle blew it was anybody's ball game. The first period was 7 to 4 East Brook leading. The half ended 11 to 9 with Bessemer having taken the lead through the fine playing of Gorenz and Benson. In the third period the East Brook team came back and tied the score at 13-13. The final quarter was a tough battle all the way with one side and then the other taking the lead until the gun ended the fray.

Schuller was the big noise in the East Brook lineup with 11 of the points through five field goals and a foul. Krause, Betka, Gorenz and Benson played fine basketball.

**Two Games Tonight.**

Tonight there are two games on tap the first game starting at 7:30 o'clock. This is a change from the two previous nights when the games started at 7 o'clock.

The Plaingrove team will play Wampum tonight in Class C, and Class B offers Shenango and East Brook. According to Prof. R. X. Graham, publicity director of the tourney the games tonight should be good ones.

## Cole Big Surprise In State Athletics

### Wins Three Letters Since Entering College

STATE COLLEGE, Pa., Mar. 11.—Although he had never taken part in athletics before entering college Clyde H. Cole, Penn State sophomore, is a potential letter-winner in three sports, football, wrestling and track, this year.

Cole, a graduate of Central High school Scranton, won a minor wrestling letter as a guard on the football team last fall, has been the regular heavyweight on the wrestling team this past season, and is likely to be a weight man on the track and field team this spring. Last year he won freshman numerals in wrestling and track.

His only athletic experience before entering Penn State was a few weeks of football in his senior year in high school, when a broken arm put him on the sidelines long before the opening game. He failed to make the freshman grid team in his first year in college.

**UPARATASA WINS OVER HI-Y, 30-3**

Displaying an air-tight defense that never shuddered the Uparatasa fraternity team of the Y. M. C. A. downed the Senior Hi-Y club of the local high school by a 30-3 score at the high school gym.

The playing of McWilliams and H. Wyman featured for the winners while Baldwin and Lockley played best for the Hi-Y.

**THREE FROM BETHLEHEM**

Penn State's wrestling team this year contained three matmen from the same city, Bethlehem, Pa. Bob Ellstrom, 125-pounder, Harold Rosenberg, 135-pounder, and Ted Reybitz, 165-pounder, form the trio.

**FISH FRY TONIGHT**

Members of the Rod and Gun club of Bessemer will hold a fish fry tonight at Bessemer.

# HIGHLIGHTS OF HISTORY

*By J. Carroll Mansfield*

George Washington
No. 23. Braddock On The March

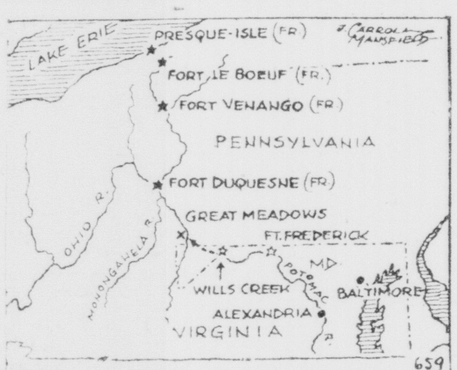

EARLY IN JUNE, 1755, BRADDOCK SET OUT FROM WILLS CREEK WITH 2200 MEN AND BEGAN HIS FATEFUL MARCH ON FORT DUQUESNE. INSTEAD OF MOVING SILENTLY AND SWIFTLY, THE ENGLISH PARADED INTO THE WILDERNESS WITH DRUMS BEATING AND FLAGS WAVING.

ON WASHINGTON'S ADVICE, A PICKED FORCE OF 1200 MEN, WITH THE ARTILLERY AND LIGHTER WAGONS, PUSHED ON AHEAD, LEAVING THE REST OF THE ARMY AND THE HEAVY BAGGAGE TRAIN UNDER COLONEL DUNBAR TO FOLLOW BY SLOWER STAGES.

AHEAD OF THE COLUMN THE FOREST RESOUNDED WITH THE RING OF AXES AND THE CRASH OF FALLING TREES AS A HUNDRED WOODSMEN TOILED UNCEASINGLY TO CUT A ROAD 12 FEET WIDE FOR THE GUNS AND WAGONS.

THE WAY WAS ROUGH AND THE ARMY, ENCUMBERED WITH THE VAST LOAD OF UNNECESSARY BAGGAGE, MOVED AT A SNAIL'S PACE. IT TOOK BRADDOCK TWO WEEKS TO TRAVEL FROM WILLS CREEK TO GREAT MEADOWS, A DISTANCE OF ONLY 40 MILES!

# NEW YORK STOCKS

## Steady Pressure Is Exerted In Market

(International News Service)

NEW YORK, Mar. 11.—Steady pressure sent the stock market lower today.

Further easing of money was disclosed by a new cut in bill rates, foreshadowing a further reduction in the 3 per cent rediscount rate here.

Sterling was lower in London, dropping 6 cents to $3.62. The London market was dull, sharp contrast with its recent buoyancy.

The bond market lost its vigor, prices generally easing all along the line with the exception of government issues, which showed a steady undertone.

Wheat was irregular. Cotton was steady on buying for continental account and the upward trend to prices in Bremen and Liverpool.

Leading stocks like U. S. Steel lost about a point apiece. American Telephone, ex-dividend today, was down nearly 2 points. Auburn was an exception, ruling 3 to 4 points higher as the shorts were run to cover. Coppers saffed on further easing of the metal for foreign delivery. Oils were steady.

# OLYMPIC HEADS ABANDON POINT SCORING SYSTEM

By FRANK G. MENKE
International News Service Sports Editor

NEW YORK, Mar. 11.—Did you know that it is quite impossible for a nation to win the world's Olympic championship?

That is, officially speaking.

The United States, is credited with being victor in the winter games at Lake Placid. But that, my dear sir, is just newspaper talk. Nobody won—officially. It is against the rules.

**No Official Victory.**

In the olden, golden days, prior to 1924, the Olympic committees did use point system and the national scoring the most points was rated as the world's champ. Because the Olympics prior to 1908 were made up mainly of track and field games, wherein the U. S. A. predominated, it always rang up enough numerals on the Olympic cash register to gather unto itself the championship.

But along in 1908 when they had worked in such other sports as cycling, tug-of-war, rugby, soccer, gymnastics, tennis, swimming, pistol, revolver and rifle shooting, rowing, fencing, etc.—well, that made it different.

Although the United States scored more points than any other nation at track and field events in 1908, Great Britain scored more points for all events and won the championship. In 1912 Sweden amassed the highest total—and was champion. There was no competition in 1916. France won the championship in 1920.

**Made Decision In '24.**

In 1924 it was decided that there should be no national champion of the Olympics. Just why the boys came to that conclusion is not quite clear. But they adopted the resolution to the effect that "there shall be no national Olympic championship hereafter and that the scoring of points be abandoned."

Under the old order of things points were scored to the first six competitors in each event.

Ten points for first place, five for 2nd, four for 3rd, three for 4th, two for 5th and one for 6th. Although the Olympic committee has ceased scoring points, the newspapers continue the practice and thus are able to inform the world who is the unofficial champion and which nation would be the world's title holder if the old custom had not been rendered null and void.

The Olympic committee really is hopeful that not much stress be made by the newspapers on the point scoring for the track and field games to be held in Los Angeles and where the U. S. A. is expected to tally heavily. This is because the U. S. A. is the host nation in 1932 and the committee feels that too much yodeling about how many points the U. S. A. has scored would make it seem that the Americans are boasting.

The court gave him an indeterminater term in Huntingdon Reformatory and recommended leniency. Frankowski admitted he was intoxicated at the time of the robbery.

# *Hope For First Flour Shipment In 10 Days; May Ask For 3,500 Barrels*

### Washington Maps Request Procedure For Red Cross; Answers Wire

### MOBILIZE GROUP FOR DISTRIBUTION

### Expect Flour Quantity, Not Grain; Entire County Is Cooperating

The American Red Cross here moved rapidly today to bring Lawrence county's first supply of government-owned free wheat from grain storage elevators in the west to homes of the district where valuable use can be made of it.

**Acts To Organize**

Secretary Orville Potter, who wired Washington headquarters of his organization early for an initial 1,000-bushel shipment, announced receipt of a reply today from Vice Chairman James L. Fieser, in charge of the Red Cross domestic activities.

The communication brought full instructions for procedure, and asked local authorities to organize a group for the distribution of the wheat and to forward immediately the estimated need in Lawrence county for the ensuing 90 days.

Potter said that his first wire for 1,000 bushels will be held over until his estimate for the first quota is provided.

Acting on Washington's instructions, Potter quickly mobilized relief agency directors of the county yesterday afternoon into a working unit and assembled the volunteers at his South Mercer street office to discuss the probable demand.

**Love Is Chairman**

Heading the county committee which will supervise the distribution is James K. Love, chairman of the city's Mayor's Relief committee, while others serving with him will be Harry M. Long, chairman, Lawrence County Red Cross; Mansford B. Hogue, county welfare officer; S. Elizabeth Sowry, executive secretary of Ellwood City's Community Service league, and Potter.

Love's committee will continue to distribute the flour to New Castle needy as has been the custom since municipal authorities organized local relief activities, while in Ellwood City the Community Service league will be in charge. Mr. Hogue's county poor department will serve the county in general while relief bodies in Bessemer, Hillsville and other points of the county will handle the distribution in their sections.

**Ponder Need Here**

Lawrence county's estimate, while not definitely settled today, will likely be 3,500 barrels of flour for the next 90 days, Secretary Potter indicated. He said this would equal 700,000 pounds or a 10-carload supply.

Chairman Love and his committee were considering the estimate further today before Secretary Potter wires the request to Washington tomorrow.

The time it would take for the wheat or flour—probably flour—to reach the city was estimated at about 10 days, but the time it will take may be longer.

Vice Chairman Fieser explained that Red Cross representatives and spokesmen for milling companies were meeting in Chicago Friday to work out a basis upon which the concerns will receive the wheat and grind it.

The flour will probably arrive here in 24, 48 and 98-pound sacks, and be hauled to the distribution points by donated trucks. The Lawrence county chapter must stand rail transportation expenses for its shipment, if there are any. This matter is yet unsettled.

New Castle's Mayor's Relief committee is providing a supply of 14,700 pounds of flour to needy folks here each week under its present plan, passing the sacks out to applicants at Carnegie auditorium. Mr. Potter announced "However," he added, "the government shipment certainly will help in our work here."

**Asks County to Help**

Potter, kept busy with the ordinary routine of the chapter office and other work, asked smaller relief groups in the rural sections or in towns of the county to call him at once so that he will know what amount of flour they will need.

Sufficient assurance has been given the local authorities that should the first supply asked run out, an additional emergency order will be filled at any time.

The National Red Cross has until May 1, 1933 to distribute the entire 40,000,000 bushels of the Federal Farm board's wheat holdings, provided for the nation by congressional and presidential action.

**Must Be Emergency**

WASHINGTON, D. C., Mar. 11.—Lawrence county will not get any of the free wheat to be distributed by the government unless an emergency condition exists to a sufficient degree to indicate the necessity of such assistance it was said by officials at the national headquarters of the American Red Cross today.

The officials said that application blanks had been sent to Orville Potter, secretary of the Lawrence county chapter of the Red Cross, and that from information provided by these blanks the national organization will determine whether there is sufficient distress in Lawrence county to demand the distribution of free wheat.

The officials stated that by Monday the organization hoped to commence the distribution of the wheat. It has not yet been determined whether the wheat will be distributed as grain or flour.

# *Capone Again Makes Offer To Join Hunt For Lindbergh Baby*

### Would Give Bond If Released From Jail And Give Brother As Hostage

### No Great Enthusiasm Shown Over Gangster's Plea By U. S. Officials

(BULLETIN)
(International News Service)

WASHINGTON, Mar. 11.—Washington officialdom did not display much enthusiasm today over Al Capone's offer to put up a large bond and take a "vacation" from jail in order to prosecute a search for the Lindbergh baby in the racketeering underworld.

Not only did Capone offer to put up a bond in any amount desired by the federal government to insure his return to custody, but also proposed to allow his younger brother to substitute for him in his cell as a hostage during his freedom. Capone's offer was made through the medium of an interview with Arthur Brisbane.

**No Official Word.**

"We have no such proposition before us officially," Attorney General Mitchell told International News Service.

"If such a proposal is advanced, we would have to refer it to the circuit court of appeals, before which Capone's case is now pending. Capone and his affairs are at present outside our jurisdiction. The court would have to decide upon it."

The circuit court has previously rejected Capone's plea to be released on bond, pending the outcome of his appeal from a 11-year jail sentence, and as yet Capone's lawyers have not petitioned the United States supreme court for a review of his case.

**How About Money.**

Officials of the internal revenue bureau, who have been seeking Capone's assets in order to collect $336,000 back income taxes they contend Capone owes the government, manifested lively curiosity over where Capone would get the "bond in any sum" which he declared his willingness to post. Al has been telling them he has no money to satisfy the judgment, and they have thus far been unable to find anything of his they could attach.

An internal revenue official who declined to permit use of his name declared that if Capone did post a huge cash bond to insure his return to prison, the government would immediately file a lien on it to satisfy the $336,000 judgment.

LIMA, O., Mar. 11.—Charles Bischoff, said by police to have confessed murdering golden-haired Marian McLean, 6, at Cincinnati, last December, has been found insane, Dr. W. H. Vorbau, superintendent of the State Hospital for the Criminal Insane, reported Thursday.

The decision in the case of Bischoff, a 45-year-old cobbler who was arrested after the child's body was found in his basement a few days before Christmas, was reached after a 30-day study of his mentality.

As a result Bischoff will be compelled to spend the remainder of his life in the State Hospital here.

# City Officials Back Work Plan Of Legion Post

E. W. Beadel To Be Chairman Of Work Devising Committee

COMMANDER BERRY EXPLAINS PROJECT

Council today met in formal session at the City building and gave wholehearted support to the campaign of employment to be waged by the Perry Gaston post of the American Legion. The campaign is to be prosecuted for the purpose of stimulating work here.

Mayor Mayne and councilmanic colleagues informed Commander Glenn Berry of the local Legion post and Ed. Beadel, who will organize the personnel of the campaign committee, that they could expect them to help in every way possible.

Berry told council that the local Legion post has taken up the problem of stimulating spring employment and that all the civic organizations are also in support of the movement, as are the building trades.

He said the latter have agreed to take a reduction in wage approximating between 36 and 40 per cent for the next 90 days. The period will be known as emergency period. Repairs can be made at a reasonable rate and considerablee work may be created.

The Legion post is not realizing any monetary gain from the campaign. Instead, they have appropriated approximately $150 to help the project. An office man has been employed at $50 a month and the Legion will pay for all the literature.

Mr. Beadel will have charge of the committee of campaign workers. He told council today that he is most willing to do anything that can help to alleviate the situation in this city and later this week his committee will be known.

As soon as it is, Mayor Mayne will issue a proclamation to the citizens calling upon them to co-operate with the Legion's efforts to stimulate employment. As a result many jobs, such as repairs needed will be ordered.

Due to the building trades' agreement "to go along" with the effort, at a reduced rate, many persons who want to have repairs made will be able to have them made and it will result to the benefit of all concerned.

Such campaigns in surrounding cities has been conducted successfully. Commander Berry pointed out that in the city of Wheeling work which amounted to $400,000 was created. A house-to-house campaign will be conducted for the work of stimulating work, he said.

## LINDBERGH BABY KIDNAPING CASE REMAINS MYSTERY

(Continued From Page One)

of Baltimore sailing from New York March 2 and due to arrive at Hamburg, Germany, today.

**No Reply As Yet**

"A radiogram was immediately sent to the captain of the City of Baltimore to investigate these circumstances and report back his findings. No reply has been received as yet.

"Information was received of suspicious circumstances concerning a family in Jamaica, Long Island, to the following effect:

"Early on the evening of the kidnaping, a large automobile was driven speedily away from the house by one man about 2 a. m.

"It returned with two men and a woman and a blond baby. There has never been a baby in this home before and since that time the baby has been heard to cry but has not been seen by the neighbors. An immediate investigation was started and during the night the investigations was completed, revealing a man and a woman together with their child, a two-year-old son, was visiting this family in Jamaica and all the people in the house had been properly identified.

**No Arrest At Hopewell**

"No one was arrested in Hopewell, N. J., this morning by any officers and we have nothing to indicate that such an arrest is anticipated.

"A woman from Jackson, Ky., communicated to these headquarters to the effect that a New Jersey car was seen three miles from Jackson and the people driving the car had with them a curly-haired baby boy. This matter was immediately communicated to the Lexington, Ky., police for a checkup. We are awaiting a report.

"Word was received from Sandusky, O., that important information was available there. This was immediately referred to the prosecutor of Erie county, Ohio, with the request that he investigate the circumstances reported and give us his findings. This matter still was under investigation and no report received as yet."

**Hold Two Couples**

CROSSVILLE, Tenn., Mar. 14.—Despite definite word from New Jersey that the baby in their possession is not the kidnaped Lindbergh child, two couples were held in the county jail here today on technical charges.

The baby, a blond curly-haired infant, was under the care of nurses in a room of the jail building. Althouguh the little boy, about two years old, strikingly resembles the missing Charles Augustus Jr., a deep dimple on the chin and other identifying marks are lacking.

After receiving a notification from Hopewell police that the baby is not the kidnaped eaglet, Sheriff Baxter Swicegood announced he would hold the two couples—Mr. and Mrs. John M. Young and Mr. and Mrs. Homer Mitchell—on technical charges of suspicion until all mysterious angles of their presence here had been cleared up.

The sheriff declared that the two men and two women had been evasive and contradictory in answering questions, particularly with regard to the child, whose parentage was not disclosed. Furthermore, according to the sheriff, the four persons told him they had no home and were merely cruising around in their automobile which bears a Pennsylvania license.

**13th Day Of Case**

TRENTON, N. J. Mar. 14—A bleak dawn today found the opening of the 13th day of the Lindbergh baby kidnaping mystery little farther advanced toward a definite solution than it was when news of it first flashed around the world.

All the intense efforts of police, underworld "go-betweens" private citizens and the frantic attempts of the parents, Colonel and Mrs. Chas. A. Lindbergh, to find a trace of the infant kidnaped from its crib in its Hopewell, N. J. home March 1 apparently all had failed.

A conference of police officials, believed to have been summoned by the famous aviator, was held in the Lindbergh home last night.

Colonel H. Norman Schwarzkopf, superintendent of the New Jersey state police, intimated new plans for prosecuting the quest for the recovery of Charles Augustus Lindbergh, Jr., were mapped out. He refused to give details, however.

**New Plans**

It was understood those taking part in the discussion of fresh means to prosecute the hunt for the abductors included Major Charles Schoeffel, Schwarzkopf's assistant, Sergeant James Finn, confidential agent of police commissioner Mulrooney, New York, inspector Harry Walsh, Jersey City, and Col. Henry Breckenridge, counsel and advisor to Lindbergh.

Schwarzkopf refused to say at the end of the conference whether any one or several definite persons were under suspicion.

Many clues investigated in the past 24 hours merely added to the growing list which on examination proved false.

Four persons were detained in Tennessee because they had with them a baby resembling the Lindbergh infant, but after consultation with the Lindberghs, it was definitely established the child was not the missing baby.

Incidentally, this resulted in the revelation that some definite identifying characteristics of the Lindbergh baby was not made public in the description of the child broadcast through the country.

**Distinct Means of Identification**

"It is felt," Schwarzkopf, in his latest regular bulletin declared, "that the giving out of additional characteristics and identifications of the missing baby would not be of any advantage as the concealing of the information gives the family an opportunity to cross examine anyone reported to have found the baby.

"The concealment of some distinctive means of identification saves the family much inconvenience and trouble and will tend to hasten identification of the child."

One of the oddest episodes reported since the abduction was still under investigation today at York, Pa.

Dr. M. B. Shellenberger, osteopath said a man with a sub-machine gun entered his office, demanded and received a treatment.

The patient then forced the doctor to accompany him to the waiting room, where a woman and baby sat.

"Do you recognize the baby?" the man asked Shellenberger.

When the latter looked non-plussed, the man said:

"It's the Lindbergh baby."

**Demands $100,000 Ransom**

Shellenberger declared the man gave him a note addressed to Lindbergh. It demanded $100,000 ransom after which the baby would be delivered today or tomorrow at Bedford, Pa.

The woman and baby left while the man kept the doctor covered with his weapon.

Another unusual angle was supplied by Calvin Petty, of Kingston, about five miles from Hopewell.

He said he was approached by a stranger near his home Saturday night.

"You don't know me and I don't know you," he quoted the man as saying.

"How much would you ask to take the Lindbergh baby back to its home?"

Petty mentioned $20,000 for the service. The stranger, however, declared he would return with 100 $1 bills probably tonight.

# Margaret Henry Home Board Has Annual Meeting

David S. Pyle And Marcus Feuchtwanger Named To Head Board During Year

GOOD REPORTS ARE SUBMITTED

Officers were named to serve the Margaret L. Henry Home for the coming year at the annual meeting held in the directors room of the Chamber of Commerce Saturday afternoon. Reports were submitted by the various officers showing the institution has had a record year.

The officers named for the coming year and the directors chosen are as follows:

Honorary president—David S. Pyle

President—Marcus Feuchtwanger

Vice president—Charles W. Read

Secretary—C. L. McMillen

Treasurer—Thomas W. Dickey

Directors—Hon. James A. Chambers, Hon. R. L. Hildebrand, Alex Crawford Hoyt, Samuel Klafter, Rufus C. Patterson, Robert J. Tully, Joseph Hannon, C. C. Robingston, John J. Maher, Jacob F. Rentz, Robert H. Cunningham and Roger W. Rowland.

The annual report of the president was read and recommendations for economies in operation were concurred in by the members of the board present.

The reports of the secretary and the treasurer showed that the institution was in good shape financially although the funds in the treasury are now running low because of the large number of charity wards being cared for.

Report of the annual audit which was compiled by Francis Sowersby was read and showed that the books of the home were correct in every detail.

Miss Margaret L. Henry, matron of the home, in her report stated that the children were all in good health and that they had no experience of any severe or dreaded children's diseases at the home during the past year. The children of younger ages are receiving a pint and a half of milk daily instead of the pint which has been customary in past years, since experience has proven that those children coming to the home undernourished and neglected are more quickly built up by this increase in the amount of milk given them.

Miss Margaret L. Henry was re-elected matron and Mrs. Madge S. Place assistant matron for another year.

New Castle high school students were all "pepped" up today over the impending New Castle-Braddock game at the Pitt Stadium, Pittsburgh, tomorrow night. At a chapel exercise this morning Principal Frank L. Orth extolled the virtues of the New Castle team and their chances of winning. "Judy" Sypher and "Red" Williams were present and led in a number of fine pep songs.

If it is cheers that the team needs to win that important game Tuesday, then all is well. The senior high auditorium rang loud and long for the basketters, who sat blushing on the stage.

The speakers were Coach Phil Bridenbaugh, Jacob Thomas, president of the Student Council; Andy Lasky, center of the basketball team; Ralph H. Gardner, faculty manager, and Principal Orth. Orth announced that plans for the motorcade are progressing nicely.

# Dispute Over Sale Of Horse In Court

Joseph Kobus And D. P. Frew Disagree Over Payment Of Realty Commission

The case of the commonwealth against D. P. Frew, charged with fraudulent conversion, was taken up before Judge R. L. Hildebrand at county court this morning. This is a case in which Joseph Kobus, the prosecutor, claims that Frew had taken a horse from his stable and sold it without his consent.

Frew, who is in the real estate business, denies that there was any fraud about the transaction. He claims that he had sold a property for Kobus and that Kobus owed him a commission of $200.

Kobus he says, told him that he did not have the money with which to pay the commission, but that he could have a horse which he could sell and apply on the commission. After Frew had taken the horse and sold it, he was charged by Kobus with fraudulent conversion.

Robbed Of A Considerable Amount Of Money By Two Holdup Men

A. M. Brengle, stewart of a Baltimore and Ohio dining car, while enroute from his car to the Arlington Hotel on Ashland avenue, adjoining the Baltimore and Ohio tracks, early this morning, was held up by two men, who relieved him of a considerable amount of money.

The holdup men are believed to have been members of a group of four young men, who a short time previous, according to Detective H. R. Dodds of the B. & O. police force, had been at the Baltimore and Ohio station in the seventh ward, seeking a place to sleep. They were directed to the city police station.

It was but a short time after they had been at the station, when Brengle enroute along an alley near the hotel, was held up by the two men, one holding him, while the other went through his clothing. When they had secured all his money, they struck him in the stomach and knocked him out.

The holdup men secured two rolls of quarters amounting to $30; two rolls of dimes amounting to $10 and between forty and fifty dollars in paper money. Detective Dodds notified the city police immediately after the holdup and Officers Dukes and Golis answered the call.

The holdup men are described as follows:—No. 1, five feet six inches in height, heavy set and wearing a mackinaw, while No. 2, was about five feet ten inches in height and wearing a dark cap and leather coat.

# Local Man Caught In Eastern Storm

Enroute to Baltimore, where he was married early last week, Frank Mehall of 708 Croton avenue had a harrowing experience in the severe snow storm which swept over the state starting Sunday.

Mr. Mehall left here Saturday night and was held up at Latrobe on account of motor trouble, resuming his journey on Sunday morning.

He got as far as Westminster, a small place twenty-six miles north of Baltimore when he could get no further, and was unable to communicate with his waiting bride, who feared that he might have met with more serious misfortune. By noon Monday, highway crews were able to get the road open and he got through to Baltimore.

He stated that in spite of the efforts of highway crews who worked valiantly trying to keep the roads open, the snow drifted back onto the road again and made the highways impassable. Many motorists were stranded along the roads and forced to remain at farm houses or roadside gas stations until the roads had been cleared.

Mr. and Mrs. Mehall returned here late in the week, the ceremony being duly performed although held up a little because of the storm.

# Still Need Many Autos For Trip

Committee Hopes Many Will Volunteer To Take Rooters To Game

There is still room for a lot of automobiles to haul students and fans to the basketball game in Pittsburgh Tuesday evening, March 15. New Castle High School plays Braddock in one of the semi-final games for the championship of the W. P. I. A. L. In order to get rooters to the game it has been suggested that automobile owners offer to haul some fans who have not got automobiles.

Every motorists who will do so is asked to call 3075, the New Castle Motor Club and tell B. N. Hanlon of his willingness to join the motorcade to Pittsburgh. The motorcade will leave the Castleton between five-thirty and six o'clock.

March 14, 1932.

Dear Brother Lion:—

Tomorrow we will have as our speaker, Mrs. W. L. Cosel, who recently returned from Paris where she attended a session of the international peace conference.

She will tell us what transpired there.

Very truly yours,
THOMAS I. ELLIOTT,
Secretary.

Retired Supervisor Guest At P. R. R. Event; Staged By Friends

A tasty fish dinner and reminiscing of olden times crowded thoughts of rails and spikes out of James J. Westlake's mind Saturday night, as a dinner crowd of 63 Pennsylvania railroad friends assembled here to honor him on the completion of 32 years' faithful service on the Erie & Ashtabula division. Westlake, a track supervisor, joined the Pennsy's pension rolls on March 1.

Letters of regret at being unable to attend were read over signatures of men with whom the honor guest had been associated, including General Superintendent Raymond Swenk, Chicago; General Superintendent J. A. Appleton, former E. & A. superintendents; J. G. Hartley and C. W. Van Nort, former division engineers, and others.

# TO AID FILERS OF INCOME TAX

New Castle's temporary income tax headquarters in the Lawrence Savings & Trust building will remain open until 9 o'clock tonight and midnight on Tuesday night to accommodate late-comers who may desire aid in the compilation of their reports, Marion S. Woods, deputy U. S. internal revenue collector for the district, in charge of the office, announced today.

Mr. Woods' announcement came as a result of an urgent demand this morning on the part of residents for information. Tuesday marks the final date for filing 1931 tax reports.

The government's information bureau here has been functioning since the latter part of February, lending assistance to local filers who wanted official advice in difficult tax matters.

The office occupies room 216 a second floor office in the bank building.

"The Far East Situation" will be discussed at tonight's final meeting of the study group which has been sponsored by the New Castle Business and Professional Women's clubs during the past several months.

The meeting tonight will take place in the New Castle free public library building, and the topic promises to bring to light many interesting facts. Miss Alice Sterling's committee has been in charge.
